THE PARTY IN GOOD HEALTH.

Will Pass Through Pittsburgh.

[Special Correspondence Pittsburgh Gazette.]

FRANKLIN, PA.,
September 4, 9 o'clock P. M.

Your correspondent joined the President and family at Corry this morning and found them all in good health. Grant expressed himself as highly delighted with the trip thus far and was singularly well pleased with his observations among the land of oil and derricks which presented to him scenery so novel and unique. The special train which conveyed the party consisted of a fine locomotive and an elegant Pulman silver palace car, and was in the charge of experienced officials. Notwithstanding the early hour a great many citizens called to pay their respects to the illustrious President, but all the proceedings were of an informal character and not of a political nature.

TITUSVILLE.

The President occupied the platform of the car on the trip and was lost in wonderment as miles upon miles of oil wells broke upon his view, in every direction. He could not help going into ecstacies over the peculiar novelty of the scenery, and made diligent inquiries in order to post himself thoroughly on the oil great interest of the State from which so much material strength was derived in the way of revenues during the war and since its close. He remarked jocosely that petroleum had helped in its own way to crush out the rebellion, for it was a mine of wealth struck at the right moment.

THE RECEPTION.

At Titusville, the reception was of a semi-formal nature. He originally intended to stay longer in that lively city, but the railroad schedule compelled a very brief visit. He was escorted by a Select Committee through the city and at the Parshall House was received with a few words of welcome by Mr. J. A. Cadwallader, Chairman of the Councils. A large concourse of people waved the party adieu as the train again strated off.

AT PETROLEUM CENTER.

Fully three hundred persons had assembled a long time before the party arrived. The reception was most enthusiastic. The train did not remain long at this point but soon was off to

COLUMBIA FARM.

The party was escorted by a number of prominent citizens about the famous Columbia farm where, on foot, the President moved around among the great wells of that district, examined the huge tanks and great pipe lines and watched the successful oil operators pursue their lucrative business. A large delegation of men, women and children, had assembled ere the train arrived at the farm, at the station and as it approached loud cheers of welcome were awarded.

OIL CITY.

The train merely halted at Rouseville where a number of people had assembled to catch a sight of the President of the nation. The President bowed his thanks, and the train was on the way to Oil City, where a large gathering was in waiting. After visiting the new Oil Exchange where a sort of an impromptu levee was held, the party dined at the Duncan House.

FRANKLIN.

Was reached at 4:10 P. M. and here a larger crowd of enthusiastic people were present at the depot to welcome their President. The reception was very well conducted and reflected much credit to the patrioticcitizens of the thriving city. As the train came into the depot an artillery salute was fired and cheers of welcome went up from the assembled multitude.

A procession was then formed and proceeded up Twelfth street to Liberty, and up Liberty street to the Exchange Hotel in the following order: A detachment of cavalry, under command of Captain Howe; the Columbia cornet band; the reception committee; the President and family in carriages; the committee of escort; a detachment of infantry, under command of Captain Snowden; distinguished visitors; Mayor and City Council of Oil City; the Mayor aed City Council of Franklin; Franklin cornet band; citizens.

At the hotel a levee was held and a large number of ladies and gentlemen were introduced to the President and the process of hand-shaking was gone through with.

In the evening the auditorium of the new Court House was packed with an immense audience. The President was received with cheers. Hon. C. W. Gilfillan is now delivering a warm address of welcome on behalf of the people of Venango county to His Excellency.

WILL PASS THROUGH.

The Presidential party will leave here on Saturday morning and will pass through Pittsburgh on their way to Washington HARRISON.

CINCINNATI.

Cotton Exchange.

CINCINNATI, September 14.—Leading cotton factors and others interested propose to organize a Cotton Exchange in this city. A meeting for that object takes place to-morrow.

DISTILLERS.

The Board of Directors of the Distillers' Manufacturing Company has been in session here the last three days. The Association has members in Ohio, Indiana, Illinois, Missouri, Wisconsin and Kentucky. From a report presented, it appears that the members of the Association during July last produced 2,745,300 gallons, while outsiders in the same States produced only 452,000 gallons, and outsiders in all the States produced but 978,700 gallons. A committee of six was appointed to confer with the departments and committees of Congress in regard to taxes on spirits. The Association favros a consolidation of taxes and cash collections.

ILLEGAL ACTION.

The exposure of the County Commissioners' action in regard to taking the contract for the county infirmary, and in taking contracts without advertising is likely to lead to an investigaion before the grand jury, now in session.

TESTIMONY CLOSED.

The testimony in the McGheenan trial closed to-day, and the argument was begun, and it is expected will close by Saturday.

RECEPTION OF THE PRESIDENT.

The Chamber of Commerce appointed a Committee to confer with others from the Board of Trade and the city government upon the manner of receiving President Grant when he visits Cincinnati.

NEW YORK, September 14, 1871.

THE RING DENOUNCED.

At a meeting held in the Twenty-first ward last evening it was resolved that Governor Hoffman be called upon to suspend Messrs. Hall, Connolly, Tweed and Sweeny, pending the investigation of the charges against them, and that, if they were found guilty, to punish them to the fullest extent of the law. Congressman Roosevelt, in an address, said the exhibition of incompetency recently shown by the ring was disgraceful. He thought an immediate change should be effected. He did not believe there was a single man in the ring who, of his own merits, could command election for constable in his own ward.

THE INJUNCTION SUIT.

Corporation Counsel O'Gorman continued his argument to-day in the injunction suit. He said that the revenue bonds issued fell short of the amount authorized, and so far the city government had not executed its power under the laws of 1869-70, and authorized an issue of bonds for Dock Improvement, Croton Aqueduct and Central Park improvements. The laws of 1871 authorized the fire telegraph bonds, and also authorized the adjustment of the claims for the payment of which bonds were to be issued. Cornell's claim for $30,000, for work on the Court House, had, by the decision of Judge Sutherland, to be paid by the Commissioners.

If money raised by the consols was applied to city improvements it could always be repaid by the issue of bonds for the purpose so served. It was taking money out of one pocket and replacing it from the other. The Comptroller applied five millions taken from the proceeds of the consols to public improvement and the payment of laborers, because the bonds formerly issued and to be paid by consols did not become due till December, 1871. The proceeds of the consols are in the city treasury. There is no demand for the payment of the bonds, but there is a general demand from day to day for the payment of public improvements, and by paying them, the interest is saved. It is not easy to dispose of the bonds, when thrown in large blocks on the market, therefore the consols were first offered and taken up, and the public were pleased. There is nothing in the conduct of the city government warranting vindictive attacks. The city government had power to issue revenue bonds to the extent of $23,000,000, but have not done so, nor exceeded their powers, having only issued $22,790,800. They were authorized to issue $9,000,000 consols. They raised but $7,000,000. They also had power to issue bonds for improvements to the amount of $5,000,000, which they have not done; therefore have not exceeded their powers.

Mr. Beach followed on the side of the defendants, and said: It is not enough by general allegations of fraud to issue a high process for an injunction distinctively staying the arm of officials. The administration of justice is delicate and sure, and cannot be hurried by popular clamor. He gave a history of the case, he said, to show how much of the complaint deserves to be met, and how fully it has been made. He said that Connolly would not submit to be a sacrifice as a peace offering to popular clamor. The triumvirate must stand or fall together. The answer of Mayor Hall was the best defence for Connolly, because it shows that every bond was issued with the concurrence of the board of appointment.

At the conclusion of Beach's address, Mr. Bartiett, counsel for Tweed, moved for an adjournment until to-morrow, which was granted.

SECRET CONSULTATION.

It is known that a secret consultation was yesterday held by Hall, Sweeny and Tweed, in conjunction with District Attorney Garvin, for the purpose of devising some means to secure the displacement of Comptroller Connolly. The conference resulted in the adoption of no definite programme, though there were reports that legal proceedings against Connolly would be commenced at the instance of Hall by the District Attorney's office. It is generally believed that the intention to oust Connolly was abandoned. Connolly himself reiterates it as his purpose to continue in his position, and says he is ready, if the other leaders of the ring will do likewise. Among the ring faction it is the determination to have Connolly displaced. The idea of Hall and Sweeny is that if Connolly is sacrificed, pepular anger may to some extent be appeased, and that perhaps by the appointment of some well-known citizen, such, for instance, as General McClellan, whose name is mentioned in that connection, if an opportunity was offered to have it presented, the excitement might temporarily be allayed.

POLITICAL SPECULATIONS.

The Democratic leaders throughout the State are considerably exercised as to the proceedings of affairs here during the week. It is said that the great question which will come before the Democratic State Convention will be who will conduct the ring faction in this city. It is thought the county leaders will rebuke the Tammany demand for a new departure upon the question of municipal and legislative reforms. Tweed maintains a remarkable reticence in reference to the situation. Upon being advised that public opinion seemed to condemn Hall's action in regard to Connolly, he appeared to be surprised, and remarked that he had very little opportunity of obtaining any knowledge of public opinion. It is thought Belmont is anxious to have Connolly's position, should a vacancy occur, as he and his house in Hamburg are largely interested in city and county bonds, and he believes that his acceptance of the office would tend to strengthen the credit of the city.

PRESS OPINIONS.

The *Tribune* thinks it is an absurd idea to believe that the life and soul of Tammany are to be saved by throwing away one of their tools, and again asks that Connolly be put out of his position as soon as possible.

The *Times* believes Connolly has done quite right in refusing to resign, as the people have no war against him as a man, but against an institution of which he is a part. What the *Times* wants is the extinction of the entire Tammany organization.

The *Herald* thinks the power of Tammany is broken, and that nothing can save it. The leaders have not only shown themselves to be incapable as leaders, but their conduct has provoked public odium. It thinks Hall should not only remove the guilty, but resign himself, and thus every obstacle to the reorganization of the city government will be removed, and the people be given an opportunity for a new departure.

THE STOLEN VOUCHERS.

It is announced at the Com[illegible]ler's office that the list of the vouchers abstracted on Sunday will be ready in a day or two. It will show that the stolen papers comprised vouchers given by Garvey, Ingersoll, Keyser, Miller, Smith, and others of the ring contractors, for work alleged to have been performed and material furnished for the county court-house and national guard armories, together with a considerable number of warrants purporting to have been drawn by those parties.

CONNOLLY'S RESIGNATION.

William Cassidy, editor of the Albany *Argus*, Samuel J. Tilden, and other prominent Democrats of the State, have been in consultation with Tweed, Connolly, and others, upon the situation to-day, and it is rumored to-night that Connolly has consented to resign on condition that he be allowed to name his successor. The reports of the tender of the Comptrollership to General McClellan are pronounced false.

CONNOLLY TO BE IMPEACHED.

Notwithstanding the statement to the contrary, it is believed Hall does really intend to impeach Connolly, and that he yesterday telegraphed to Judge Lowe, of the Common Pleas, who is in Europe, to return, so that there may be a full bench, as that is the tribunal before which the charges against the Comptroller must be made.

CONNOLLY'S SUSPICIONS.

No clue whatever has yet been had touching the theft of the vouchers from the Controller's office. Controller Connolly, while disclaiming all knowledge of the abstraction, has suspicions which, he says, he dare not at present make known.

FATAL EXPLOSION.

An explosion occurred shortly before two o'clock this afternoon in the Union Torpedo Works, near Fulton Market, killing six persons instantly and wounding eight more.

Two persons, Henry Brown, and Burke, a driver of a truck, were instantly killed by the Beekman street explosion this afternoon, and eight others are now in Centre Street Hospital, three of whom, Michael Goldschmidt, proprietor of the establishment, Henry Righart, an employe, and Mary Jane Burr, residing opposite the scene of the explosion, will probably die. A Beekman street car was passing at the time, and the two horses drawing it were almost blown to pieces. It is not known whether any passengers were injured. Nearly all the adjacent and opposite buildings were seriously damaged by the explosion, and the loss of property will be considerable.

Louis Kleuber, a partner of Goldschmidt, who owned the torpedoes that exploded, was arrested this evening. The fulminate is supposed to be picrate of potassa.

THE LOUIS BONARD ESTATE.

Surrogate Hutchings has decided in favor of a commission to be sent to France to take testimony as to the alleged existance of heirs of Louis Bonard, otherwise Charle Marin Bonard, a French convict, as asserted on the part of the contestants. Meanwhile the hearing of the case will proceed here.

NEW EXCHANGE ROOM.

The President of the New York Stock Exchange to-day announced on the first call that the new exchange room would be open for public inspection on Saturday from one to five P. M. The Board will adjourn that day at one o'clock until Monday, when formal possession will be taken of the new room.

THE DEFAULTING POSTMASTER.

The bondsmen of Assistant Postmaster Jones held a private meeting this afternoon, and appointed Abram Wakeman to take charge of the disposal of the property of the defaulting Assistant Postmaster Morton, of which they have already taken possession.

NEW YORK PRINTING COMPANY.

The sign board which has heretofore borne the name of the New York Printing Company, which is said in the complaint in the injunction suit to be made up of members of the ring, has been painted over so that it now presents a blank appearance.

INJUNCTIONS GRANTED.

In the suit of Jas. H. Hoffman for an infringement of his paper collar patent, injunctions were granted to-day against John M. Davis & Co., Cochran, McLean & Co., Mosely & Moody, Albert Peck, J. Levine & Co., and Tynberg & Co.

CRUELTY TO ANIMALS.

In the Court of Special Sessions to-day Justice Dowling found a conductor and driver of a car guilty of cruelty to animals in carrying an excessive load of passengers. Sentence deferred.

HORSES BURNED.

Late last night Peter C. Wilson's livery stable, at No. 23 Perry street, was burned. Twenty-three horses perished. One of the horses in the stable was worth three thousand dollars.

CHICAGO.

The Franklin Tragedy.

CHICAGO, September 14.—The De Kalb county (Illinois) *News* of yesterday gives the particulars of the terrible tragedy, heretofore referred to in these dispatches, which took place in the town of Franklin, De Kalb county, on Monday last. The name of the murderer and would be suicide is Carl Donnefeld, a Prussian. The names of his victims are Carl and Mary Weisenberg, man and wife, aged sixty-one and sixty-three years. Donnefeld also attempted to murder another man named Meyers, but he escaped with only slight injuries. Weisenberg and his wife, who are Prussians, came to this country some twelve years. Being quite old, and owning a farm, they wrote to Donnefeld and made an arrangement with him to come to Franklin and carry on the farm, and maintain them so long as they lived. In return, he was to inherit all the property remaining at their death. They seemed to live peacefully together until a few weeks since, when a dissent arose among them, which resulted in the sale of the farm to Myers, with a reserved interest for Donnefeld. On Monday morning, while Myers was milking the cows, Donnefeld made an assault upon him with a spade. As before stated, he made his escape. Donnefeld then rushed into the house and to Weisenberg's room, where the old gentleman lay sick. He soon dispatched him with the spade. Weisenberg's wife, hearing a noise in his room, went to see what was the matter. Donnefield met her at the door and at once dispatched her with the same spade with which he had killed her husband. He then rushed to the barn and hung himself. When discovered by the neighbors, whom Meyers had alarmed, he was quite dead.

RAINS.

Southern and Central Illinois, which have been suffering for weeks from a terrible drouth, was visited last night and today by refreshing rains.

ARRESTED.

Murphy who stabbed a man named Kenney, on Sunday morning last, on Clark street, from which he died, was arrested to-day.

TENNESSEE.

Ku-Klux Outrages.

NASHVILLE, September 14.—L. L. Weir, of Lewiston county, Alabama, who was taken from his home some days ago by five masked men, was found yesterday tied to a tree in a swamp. The men, after whipping him, held him in a stream of water until he was nearly drowned. They then tied him to a tree and left him to starve. Two of the maskers were arrested.

THE HOP CROP IN WISCONSIN.—A special despatch from Madison, Wisconsin, says there is considerable excitement in that section among the hop-growers. As high as 50 cents per pound has been offered for new hops, and 20 cents for last year's growth. The quality this year is pronounced better than for several years, but the quantity is limited. The estimated crop is only 5,000 bales. [All of which looks like bulling the market.]

—A dispatch from Kansas city says the express office at Ellis, Kansas, was robbed on Tuesday night of $22,000.

SQUATTERS ON INDIAN LANDS.

WASHINGTON, Sept. 14, 1871.

THE DEFAULTING PAYMASTER.

The following is a complete copy of Major Hodge's letter of confession:

Washington, Sunday, September 10, 1871.—General B. W. Bryce—Sir: I have to inform you that I am unable to close my account, and that I owe a frightful amount—about $450,000—which sum I have lost during the last few years in stock speculation, going deeper and deeper in the hope of retrieving myself. I have no excuse or mitigation of my course to offer, and propose to take the full consequences of my sin. I had thought a week ago of escaping from New York, but believe I have done better in returning here to deliver myself up, as I felt I was bound to do. I can, of course, make no pretense of an excuse for the systematic deceit I have practiced on you and the advantage I have taken of the special position I have held, and feel that you especially have cause to be justly inexorable against me. I have been led on by the infatuation that always attended the course I entered on, hoping always to recover my loss and conceal my crime. I believe it is really a relief to be forced into the discovery, for I have been in a hell on earth for years, and the alternations of hope and fear that I have gone through, and the constant care to avoid detection, were becoming too strong. I desire to turn over all the property I have, as a small set off against my deficiency, and after giving any information that will assist in settling my accounts, or, if possible, in recovering a portion of what I have lost, I expect to take the full punishment awarded for my offence. In justice to two parties in this city, through whom I have made some speculations, I wish to say they are perfectly innocent of any knowledge that I was using public funds. There are small balances with each of these parties to my credit, whenever the accounts are closed. The losses I made were almost entirely in New York with one house there, whose accounts I hold subject to your order. I endeavored to induce them to make good the amount lost with them, which they knew was public money, but they have refused. I have been trying to make up my mind to this confession for some days, and was on the point of doing so this morning in your office, but I could not bring myself to say it, and wanted time to write to my innocent wife, whom this frightful information will kill. God forgive me for what I have done to her and my children! All I ask from you or the authorities, is that, if possible, some small sum may be left her. I enclose the keys of my safe and box containing all my old accounts, &c. My present vouchers, receipts, &c., are in the hands of my clerks, who are all of them perfectly innocent of any knowledge of my deficiency. I shall remain at my house, No. 1423 K street, till informed of what action you have taken concerning me. There is no fear that I will go away now.

[Signed.] J. LEDYARD HODGE.

Postmaster General Bryce says this morning that it will appear upon investigation that the Treasury Department is responsible for the failure of the Government to discover the defalcation sooner. General Bryce also denies the report that Hodge, after suspicion had first been attached to him, was allowed to draw any checks except such as were necessary to transfer balances to the proper officers.

WEATHER REPORT.

The high barometer which was on Wednesday afternoon on Lake Superior has moved eastward and now extends over New England. The pressure has begun falling in the latter State, and has fallen this afternoon from New York to Michigan and southwards, as also from Lake Superior to Missouri. The lowest pressure remains probably in Arkansas, but has moved slowly northeastward. The barometer has fallen slightly on the Gulf, after having risen. Increasing northeasterly winds have extended over the lakes and Middle States. Northerly winds prevail in New England. The temperature has fallen decidedly from New England to Minnesota and southward to Tennessee and Virginia. It has risen in the Gulf States. The dense smoke prevailing on the lower lakes last night has been pushed to the southeastward. Heavy rains have fallen in Arkansas and the Ohio valley, and have prevailed from Lake Erie south and west.

Probabilities.—Rain and threatening weather, with increasing northeasterly winds, will probably extend to-night to Lake Superior and New York, and prevail in New England by Friday night. Light rains will probably be followed by clearing weather in the Southern and Gulf States.

SQUATTERS TO VACATE.

The United States Attorney for Minnesota has been instructed to compel squatters to vacate the Mille Lac lands they have taken from the Indians in violation of the treaty and stipulations of the government.

NATIONAL BANK REPORTS.

The Comptroller of Currency will not call for the reports on the condition of national banks until he is ready to embody them in his report to be laid before Congress.

KENTUCKY.

Railway Matters.

MAYSVILLE, September 14.—The Kentucky and Great Eastern Railroad in northeastern Kentucky has been greatly interested in the projected railroad from Cincinnati to New Orleans. On Tuesday Hon. J. K. Sumrall, Presiding Judge of the Mason county Court, summoned the Board of Magistrates of the county to determine whether they would submit to the people a proposition to subscribe four hundred thousand dollars to the capital stock of the company. They met to-day, and were addressed in able and eloquent speeches by A. J. Hodden, of Cincinnati, and Hon. W. H. Wadsworth. The magistrates voted unanimously to submit the proposition, and when their decision was announced the large crowd in the Court House greeted the result with enthusiastic shouts of approbation. Mr. Hodden especially was congratulated upon the result of his efforts. The county will vote for the subscription by an overwhelming majority. This will secure the road, as the other counties will follow the example of Mason.

The Montreal Regatta.

MONTREAL, Ont., September 14.—The four-oared race to-day was won by the Halifax-Barton crew in thirty-three minutes and ten seconds. Both English crews led, but went three hundred yards beyond the turning buoys before discovering their mistake. They claim that the buoys were changed during the night. The Renforth crew came in second, one hundred and fifty yards behind the Barton, and fifty ahead of the Winship crew.

The Taylor-Winship crew publish a challenge this morning offering to row any crew in Canada for five hundred pounds a side at Lachine, to come off October 2d. Very little interest was manifested in the race to-day.

INDIANA.

Petitions Dismissed.

INDIANAPOLIS, September 14.—Yesterday by an order in the writing of John Schwartz, Esq., its attorney, the city of Lawrenceburg dismissed its petition for the adjudiction of bankruptcy pending in the District Court of the United States for Indiana against the Indianapolis, Cincinnati and Lafayette Railroad Company, and to-day Perkins, Livingston and Post, by Mathew and Ramsey, their attorneys, have dismissed a like petition pending against the same corporation.

It is hoped that the conference will be able to arrange for the evacuation of all the Departments, except six, by means of customs concessions.

COMMUNIST PRISONERS.

In the Assembly to-day General De Cissey stated that two additional courts martial for the trial of Communists will shortly be appointed. He said that there are now but one hundred and two judges to examine the cases of 30,000 prisoners, including 750 convicts. Even with additional courts, the government will probably be obliged to release 15,000 prisoners without trial, as it is impossible to sentence more than one hundred per month.

It is also stated that Italy was invited by Bismarck to become a party to the Austro-German alliance, but the invitation was declined by King Victor Emanuel, who preferred observing a policy of neutrality rather than join in an alliance with Germany. It is further stated that in consequence of this refusal on the part of Italy the German Premier now threatens the absorption of the Italian provinces of Venetia and Lombardy into Austro-German territories. These statements cause great uneasiness in diplomatic circles, and further developments regarding the alliance and looming differences with Italy are awaited with great anxiety.

POLITICAL.

Meeting at Salisbury Beach, Mass.

BOSTON, September 13.—The annual gathering at Salisbury Beach to-day was attended by fifteen thousand people. General Butler, Wendell Phillips, Mayor Kelly, of Newburyport, David Perkins, Mayor of Wilton, and Capt. F. D. Burtham, delivered speeches.

Butler's speech was a presentation of arguments he had heretofore advanced.

Wendell Phillips, who followed him, said that of all the men Massachusetts had honored within the past fifty years, none could compare in statesmanship with Butler, and that no name will stand higher in the history of the State he represents. The great question of the future is "Capital against Legislation." Phillips, unlike Butler, did not answer the newspapers, but obeyed the injunction not to answer a fool according to his folly. He wound up by saying that New York was the private property of half a dozen millionaires, and that the laws are made in Vanderbilt's office, and that Boston was following in the same path.

The meeting adjourned to meet the 15th of September, 1872.

Massachusetts State Convention.

SPRINGFIELD, MASS., September 14.—The State Democratic Convention to-day was presided over by Edward Avery, of Braintree. Three hundred and seventeen cities and towns were represented by 1,644 delegates. John Quincy Adams was nominated for Governor by acclamation, and Judge Abbott and Col. Charles G. Greene, of Boston, Geo. W. Gill of Worcester and George M. Stearns, of Chicopee, were chosen as delegates at large to the National Democratic Convention. Resolutions were adopted demanding reform in the national administration and free amnesty and equal rights in the South; accepting the new amendments and new departure; calling for reform; taxation and tariff for revenue only; denouncing the prohibitory and State constabulary laws; declaring against railroad monopolies, and endorsing the candidates nominated.

Massachusetts Democratic Convention.

SPRINGFIELD, September 14.—The complete ticket nominated by the Democratic State Convention, to-day, was as follows: Governor, John Quincy Adams, of Quincy; Lieutenant Governor, S. O. Lamb, of Greenfield; Secretary of State, Luther Stevenson, Jr., of Hingham; Treasurer, Levi Hegwood, of Gardiner; Auditor, Pheneas Allen, of Pittsfield; Attorney General, Wm W. Warren, of Brighton.

ST. PAUL, September 14.—The State Convention was held yesterday. Before adjourning, it passed unanimously a resolution commendatory of General Hancock as a soldier and citizen.

THE ELECTIONS.

Maine.

AUGUSTA, ME., September 14.—We have official returns of the vote for Governor from three hundred and thirty cities and towns, and plantations. In these places Perham has 49,602 votes; Hindall 39,784, majority for Perham, 9,818. There are about two hundred towns to hear from, which will bring the total vote up to a little more than one hundred thousand, and give Perham a majority of 11,000.

California.

SAN FRANCISCO, September 14.—The latest returns indicate that the Democrats have two majority in the Senate. The Republicans claim a majority on a joint ballot.

The committee selected to recount the votes of San Francisco developed nothing fraudulent beyond silver, with which the name of Badlam (taxpayers' candidate for Assessor) had been erased from about twenty ballots, the erasure not showing till some hours after the ballot was deposited.

BRIEF TELEGRAMS.

—The Lexington (Ky.) races were very poorly attended yesterday.

—The Industrial Exhibition at Cincinnati got fairly under way yesterday.

—An oil train was burned at Greenwood, N. Y., on the line of the Erie Railway, yesterday. All trains were detained two hours.

—Governor Hoffman delivered an address at the fair of the Westchester County (N. Y.) Agricultural and Horticultural Society.

—Attorney General Champlin, of New York, has given his opinion that steam tug boats can compete for the prize offered for expeditious propulsion on canals.

—The Pharmaceutical Convention at St. Louis yesterday spent the greater portion of the day in listening to the reading of scientific papers and discussing them.

—Horace Greeley delivered an address before the Northwestern Agricultural Association at Minneapolis, Minnesota, yesterday, to an immense crowd. Over 7,500 people were present.

—A United States registered bond of $10,000, No. 1,488, caveated by the Treasury Department, was offered for sale at Wilmington, N. C., yesterday. The person offering it was arrested.

—Delleker, cashier of the mint at Philadelphia, about whose accounts, it was lately reported, there was a mystification, has been completely vindicated and his accounts all found correct.

—The National Association of Spiritualists is in session at Troy, and a large number of delegates are present. Mrs. Victoria C. Woodhull was elected President for the coming year, and has accepted.

—A fire at Saratoga, yesterday, destroyed property to the amount of nearly two hundred thousand dollars. The Park Place Hotel, the Columbian Hotel and a large part of the Crescent Hotel are destroyed.

—The first annual fair of the Middle Tennessee Colored Agricultural and Mechanical Association is now in progress at the fair grounds near Nashville. The display of plants, shrubbery, fruits, melons, preserves, paintings and textile fabrics is very fine.

The Lincoln Monument in Philadelphia.

On the 22d inst. a monument raised to the memory of the great Lincoln will be unveiled in Fairmount Park, Philadelphia. The *North American* describes it as follows:

The base is oblong, with projecting buttresses at each corner, and technically termed "battered," that is broad at the base and diminishing toward the top. The extreme dimensions at the ground are seventeen by fifteen feet, and the height of the base four feet. Above this is a moulded plinth, with consoles at each end resting upon the buttresses of the base. Upon ornamental panels are carved the following inscriptions. On the south panel:

To
Abraham Lincoln,
From a grateful People.

On the east panel:

Let us here highly resolve
That the government of the people,
By the people and for the people,
Shall not perish from the earth.

On the north panel:

I do order and declare
That all persons held as slaves
Within the States in rebellion,
Are and henceforth shall be
Free.

On the west panel:

With malice towards none,
With charity towards all,
With firmness to the right, as
God gives us to see the right,
Let us finish the work we are in.

A second plinth surmounts the one on which these inscriptions are cut. At each corner of this portion, supported by the consoles of the lower plinth, are seated bronze eagles, with their wings half spread. These are about two feet high and three feet across the wings. Between the eagles and extending across the face of the plinth are festoons of oak and laurel, also in bronze, and riveted to the stone.

Surmounting this second plinth is the pedestal, seven feet high, rounded at the corners and ornamented with panels on the four faces. On the south face is carved a pair of crossed swords, wreathed with olive and immortelles. On the east, the coat of arms of Philadelphia. On the north, a pair of American flags, crossed and draped. And on the west, a shield, with the American eagle, surrounded with stars, and supported by bundles of olive and laurel leaves.

Above this is a projecting moulded cornice, and, surmounting the whole, is the figure of the murdered President. The figure is of bronze, modelled in Rome, by Randolph Rogers, and cast in the world-renowned foundries of Munich, Bavaria. The President is represented sitting in a cushioned chair, facing toward the south. In the right hand is a quill pen, and in the left is a scroll, representing the Emancipation Proclamation. The face is an excellent likeness, and the posture is easy and natural. The figure is colossal in size, and measures, sitting, nine feet six inches high.

State Convention—Committees Appointed—Reports from Associations—The Discussion Proper Opens.

ERIE, PA., Sept. 18, 1871.

WEDNESDAY—MORNING SESSION.

The Convention re-assembled at half past nine o'clock in the First Methodist church, previous to which an hour was spent in devotional exercises. General James A. Beaver, President of the Convention, occupied the chair. There was a large audience in attendance at the opening. After reading of Scripture the opening prayer was offered by an old colored minister from Ohio—Rev. Mr. Young. The audience then sang standing, the hymn—

"All hail the power of Jesus' home."

Minutes of previous session read and adopted.

The Committee on Credentials were appointed as follows:

John Knox Marshall, of Philadelphia, Jos. Shallenberger, of Pittsburgh, and R. S. Moffat, of Erie.

Committee on Resolutions—Dr. E. R. Hutchings of Philadelphia, Lindsay of Warren, and McMasters of Turtle Creek.

The roll of the several Associations of the State was then called and responded to by delegates from each Association.

Geo. F. Jones reported very encouragingly on behalf of the Association of Altoona.

Mr. James Wagner reported from the Association of Beaver, giving number of members and general statistics.

General Beaver reported on behalf of the Association of Bellefonte. Mr. Magill on behalf of Cross Creek. Mr. Allison for Candor. Mr. Kildough for Herron, Mr. Hood on behalf of Connellsville. C. B. Chapman of Erie, on behalf of his Association reported earnest work. S. E. Phipps for Edinboro. Mr. Barnes for Easton, remarking that they had reviving times there. Mr. Roberts reported for Germantown, C. A. Conkle for Harisburg, Bishop Hidebugh on behalf of Shrewsbury.

The time allotted for the above reports having expired, the audience arose and sung the beautiful hymn,

"Jesus lover of my soul."

A letter was read from Rev. T. A. Fernley, Philadelphia, bringing words of love and fraternal greeting.

T. H. Rabe, of Pittsburg, then presented the report of the State Executive Committee. Twenty Associations have been organized during the year. The work has been greatly enlarged. Several new buildings have been erected. The Philadelphia Association has erected a Young Men's Home. The holding of local conventions were recommended. Our finances are in a healthy condition. The temperance work has secured a large share of attention. It was suggested that the services of a paid Secretary be secured. The report was referred to the Business Committee. Mr. Rabe followed in an eloquent address.

Then followed the discussion of the topic—"Causes of failures and discouragements in the management of Associations"—which was opened by C. C. Small, of York. He thought that many failures were owing to too much machinery in the meetings. There was a want of perseverance. Let us resolve to go on with the work, let others do as they will, and we cannot fail.

Three minute speeches were then in order. Dr. Reed, of Union city, made a few earnest remarks. Mr. Doudel, of York; Ragg, of Altoona; Rev. Mr. Fleming, of Johnstown; King, of Franklin; John Knox Marshal, of Philadelphia; Piercel, of Warren; Dr. Marks, Rev. Mr. Rollin, of Pittsburgh; Zahnizer, of Mercer; Barnes, of Easton; Rev. R. McMillen, of Hermon; Paine, of Petroleum city; Stayton, of Tidioute, and others.

The Business Committee then presented the order of exercises for the afternoon and evening.

Rev. Mr. Rollin, of Pittsburgh, and Fleming of Johnstown, were added to the Committee on Resolutions.

The following committee on associations were appointed: Jennings, of Pittsburgh; Zahnizer, of Mercer; Roberts, of Germantown; Barnes, of Easton; Kunkle of Harrisburg.

After the singing of "Beautiful River," the Convention adjourned to meet at the same place at 2½ o'clock, P. M.

AFTERNOON SESSION.

Convention re-assembled at 2½ o'clock, President James A. Beaver in the chair, with Thomas Marshall, of Philadelphia, acting as secretary. The audience in attendance was very large. The President stated that a dispatch had been sent to the Convention in Utica, N. Y., with words of good cheer and fraternal greetings, with the second chapter of Ephesians from the 13th verse to the end. The audience joined in singing the hymn

"O for a closer walk with God."

After which a touching prayer was offered up by the President.

The first topic of discussion was then taken up, namely, "The value of the Y. M. C. Association where there are no churches." Rev. C. C. Kimbal, of Erie, made the opening address. He gave a lengthened experience of his own in the matter.

THE Philadelphian who kissed his hired girl while his wife was peeping through the keyhole, will be able to be out about Christmas.

H. K. Porter, of Pittsburgh, followed, giving a history of the Associations formed under the auspices of the Pittsburgh Association.

Rev. Mr. Edwards, of Tidioute, referred to a neighborhood where religion had been almost eradicated, but where a Young Men's Christian Association, being formed, worked wonders.

A letter was now read by the President from William Armstrong, M. D., Philadelphia, bringing words of counsel, love and brotherly greeting.

"Results from Open Air Meetings," was the next topic which was introduced by the Secretary of the Convention—Thos. Marshall, of Philadelphia. Twenty-five open air meetings have been held under the auspices of his association, reaching 10,000 persons every season. One hundred and fifty tracts are distributed. The Pastors and all Christians cooperate with us. The address closed with some valuable suggestions to secure larger attendance and to conduct the meetings successfully.

The meeting was then thrown open for three minute voluntary addresses. Louis D. Vail, of Philadelphia, Rev. Mr. Small, of York, John Morrow, of Pittsburgh, Rev. Mr. Edwards of Tidioute, Rev. Robert McMeller, of Hermon, Peter B. Simons, Philadelphia, D. S. Bursk, of Lancaster; Rev. Mr. Niles, of York, Foster, of Union City and Thompson, of Petroleum Centre, made brief addresses, all of which gave encouraging accounts of the glorious results of these open air meetings.

On the motion of P. B. Simons, it was resolved that all the pastors of Erie and vicinity be elected corresponding members.

After singing the long metre Doxology, the Convention adjourned to meet at half-past seven o'clock.

During the afternoon the delegates accepted the excursion on the lake, tendered by the Young Men's Christian Association of Erie. All the points of interest were visited, and the trip was one of rare enjoyment. The company numbered about three hundred.

EVENING SESSION.

The convention assembled pursuant to adjournment, in the First Methodist Church at 7½ o,clock, President Beaver in the chair. The exercises were introduced by the singing of the hymn,

"Am I a soldier of the cross,"

reading the fourth chapter of the Ephesians, and prayer by Mr. John Morrow, of Pittsburgh. The audience assembled on the occasion was very large, the spacious church edifice being crowded to overflowing with the *elite* of the city and neighborhood. The Young Men's Christian Association is dear to the people of Erie.

After singing another hymn the topic for the evening's discussion was announced, namly, "Relation of Growth in Grace to Christian Achievement." To be opened by the Rev. Mr. Edwards of Tideoute.

Mr. Edwards came forward and proceeded to address the meeting. He said that much had been accomplished, in the past, but not half so much as if we had understood this subject better. If we could attain the secret of power with God what mighty work could we not do. We need both the graces and grace. We must *be* before we *do*. We must live near to God if we get near to man. Let our prayer be

"Nearer my God to Thee."

Dr. Hutchings of Philadelphia, continued the discussion. Growth in grace and Christian achievement are so intimately connected that they cannot be separated. He urged those present to go away and work more earnestly, and true piety will increase on our land.

Mr. W. D. Mossman, of Scranton, was the next speaker. He would change the reading of the subject and discuss the relation of Christian achievement to growth in grace.

J. J. Joyce, of Philadelphia, did not think a man could grow in grace and not work for Christ. As we come nearer Jesus we increase our working power.

John Morrow, of Pittsburgh, thought there was a phase of the subject not developed. If we do not grow in the closet we cannot grow by working. Our true growth is by the aid of the Word and Spirit, on our knees before our Saviour.

Mr. Cousins agreed with the former speaker that it is only by waiting on the Lord that we shall "renew our strength."

Mr. Mealey, of New Wilmington, followed. Growth in grace is not work. Men can talk but will not turn their eyes unto their hearts. Men pray and talk but never bow their knee to their Master. Let there be more devotion than external work. Why do some men fail? They work and do not have enough devotion. The speaker struck the key note of the subject in its true phase.

Rev. Mr. Niles of York and Rev. Mr. Fleming of Johnstown followed in brief addresses when the President read a response from the Convention held at Utica, New York, sending words of fraternal greeting with the 16th and 17th verses of 2nd chapter of II. Thesselonians.

Rev. Mr. Small of York referred to those who accomplish great things for Christ as men who give two-thirds of their time to Christ in devotional exercises. Let us go first and learn Jesus and then go out and work for Him.

Rev. Mr. Rollin of Pittsburgh made the closing address. All our power comes from above. We must have the Christly power, savor and grace, if we would have Christ give success. Let us work and pray and God working in us we shall bless the world.

It was announced at the close of these exercises that those who desired it could have an excursion to Niagara Falls; after that the Convention adjourned.

CONVERTING
U. S. Five-Twenties

Messrs. JAY COOKE & CO. have issued the following financial circular relative to the general conditions of the loan market, and the exchanging of Government bonds for Railroad securities:

OFFICE OF JAY COOKE & CO.,
PHILADELPHIA, September, 1871.

The signal success of the New Five Per Cent. Government Loan foreshadows the early funding of the entire debt at a less rate than 6 per cent., and indicates that the average rate of interest on loanable capital in this country will henceforward be considerably lower than it has been, the tendency being to an equalization of rates between America and Europe.

In view of these facts, the present holders of United States Five-Twenties must decide whether it is not best to make *at once* such a change of investment as will enable them to realise as profit, or add to their capital, the present average premium of 14 per cent. on Five-Twenties, while at the same time largely increasing their annual income.

Holders of Five-Twenties of the issues of 1862 which, under the recent announcement of the Secretary of the Treasury, will be paid off in December next, have special and immediate reason to consider the question of conversion, unless they wish to receive coin for their Five-Twenties, or exchange them at par for bonds of the new issue, bearing an average rate of 4½ per cent.

To all holders of United States securities who wish to take advantage of the present most favorable opportunity for changing their investment at a large profit we strongly recommend Northern Pacific Seven-Thirties (principal and interest payable in gold,) now selling at par in currency. The results already accomplished in the construction and equipment of nearly Three Hundred Miles of road, and the rapid development of the adjacent country, have established the permanency and success of the Northern Pacific enterprise, and created a large and rapidly increasing demand for the First Mortgage Bonds of the Company. With their high rate of interest, ample security, and their convertability into the Lands of the Company at 10 per cent premium, they constitute a most desirable investment, and can hardly fail to advance considerably above par at an early day.

The holder of a $1000 Five-Twenty bond who exchanges it now for Northern Pacifics, thereby increases his principal by 14 per cent., receiving $1140 in Northern Pacifics for $1000 in Five-Twenties. He also permanently increases the yearly interest income on his investment more than 38 per cent., or from $60.00 in gold to $83.22 in gold.

Funds invested in Five-Twenties at their present premium, yield 5¼ per cent. interest in gold or 5 9-10 in currency. Northern Pacific Seven-Thirties yield 7 3-10 per cent. in gold or 8½ in currency.

These most unusual opportunities for the profitable conversion of Government Bonds into Corporate Securities of undoubted reliability, cannot, in the nature of the case, long continue. The increasing abundance of loanable capital both at home and abroad; the almost certain rise in value of all desirable railroad mortgages, the rapid absorption of Northern Pacific Seven-Thirties and the probable early substitution of a six per cent. bond for the remainder of the Northern Pacific loan, and the early funding of the remainder of the National Debt at lower rates, promise very soon to change the entire aspect of the loan market, which is just now so peculiarly favorable to investors.

This state of things suggests *prompt action* on the part of those who wish to exchange securities in time to profit by the present high premium on Five-Twenties.

SPEAKER BLAINE telegraphs in reference to the Maine election as follows: "Upon the fairest calculations, based on the returns thus far received, Governor Perham's majority will be between 10,000 and 11,000. WE THINK WE HAVE CARRIED EVERY COUNTY BUT ONE. Have elected twenty-nine out of thirty-one Senators, and more than three-fourths of the House of Representatives. The three largest cities of the State, Portland, Bangor and Augusta, elected nine anti-Republican Representatives last year. We have carried them all this year, and have reclaimed Lincoln county, which the Democrats have carried for several years. The aggregate vote in the State will be considerably larger than last year, and Governor Perham's majority will be nearly 3,000 greater."

THE Washington *Reporter* this week contains the eloquent address delivered in that borough on Monday by Rev. James J. Brownson, D. D., at the beginning of thirty-sixth year of the Washington Female Seminary.

THE CINCINNATI INDUSTRIAL EXHIBITION, is attracting visitors from all parts of the country, who of course, are all vastly and favorably impressed with the extent and greatness of Cincinnati's manufacturing facilities. Why can Pittsburgh not have an "exposition"? Do we lack anything but enterprise? Will the "old fogyism" of our natures never be eradicated? Where are our young mechanics? Start the thing going, and we promise to do our share with a will. It will be the best advertisement ever attempted.

MARYLAND REPUBLICANISM is the same as that of our own State. As we have before shown, the principles of our party are national in their application and adaptation. We have no necessity for classifying our professions to suit the locality in which they are uttered. Our party knows no North, no South, no East, no West, nothing but our whole country, and its welfare, from centre to circumference. Our friends in Maryland have met in State Convention, endorsed the administration of President Grant, recommended his renomination, announced themselves in favor of civil service reform, which will secure for merit, its reward, and permit of removals from office only on sufficient cause. The resolutions further denounce the Democratic party as false to the sacred principles of honesty, true Democracy, and religious liberty, and point with emphasis to the secret history of the city of New York and the corruptions of Tammany. Though yet in the minority, Republicanism will one day shine forth in Maryland, and dispel the long night of ignorance which has blighted the influence of that State.

THE *Golden Age*, being the organ of the Apostle Tilton, is an advocate of peace. It is not, however, absolutely necessary, on that account, that it should not tell the truth. Any little statements it may make to mislead its readers in regard to the administration of the public funds, might justly be regarded as the bearing of false witness, which, surely, the apostle ought to refrain from as much as possible. Now, in the last number of that journal we find the following statement: "More than half the money raised by taxes in this country goes for military purposes." Turning from this to the Report of the Secretary of the Treasury, for the fiscal year, ending June 30th 1870, we read that the receipts from Internal Revenue were $185,128,859.37, and the expenditures for the War Department were $57,655,675.40. Now merely taking these figures it would be difficult to make truth out of the Apostle's statement; but when we remember the enormous sums that are raised by state, county and city taxes in this country, the military expenses dwindle to a very small fraction of them. And now it seems to be an open question whether Mr. Theodore Tilton stands more in need of an arithmetic or a copy of the ten commandments.

THERE are people who, believing as they do that this is a world of toil and sorrow, think they have no right to alleviate, in any way whatever, their miserable condition. That the condition of such people *is* miserable, we think there can be no doubt, and the Southern Indiana Conference of the Methodist church can scarcely be very happy, judging, as we do, from the following resolutions which were passed unanimously by that body:

"*Resolved*, That it is the sense of this Conference that the practice of card-playing for amusement has a pernicious moral tendency and should be banished from all our homes and social circles.

"*Resolved*, That the base ball club, the social play party, the theatre, the circus show and the dance, whether in the parlor or the public hall, all tend to dissipate the mind, are detrimental to virtue and religion, and in many instances positively injurious to the health of the body, and should be discarded.

"*Resolved*, That horse racing, whether on the race track, the highway, or the fair grounds, is contrary to the spirit of the Gospel, and should not be tolerated by a Christian community."

We know that there is a wide spread prejudice against horse racing, card playing, theatres and circuses; we are not, ourselves, ardent devotees at the shrine of base ball, but this is the first time we have heard official objections made to the "social play party," if it is what we suppose, and the family dance is, we think, rarely objected to.

SOME MONTHS AGO, our readers may remember, much ado was made by our German neighbor, the *Volksblatt* about an association composed of Germans which meant to accomplish a great political reform, and to hold that important scale, the balance of power! This combination, calling itself the National Association, held, or attempted to hold one or two largely advertized "mass meetings," which failed only because people did not go to them. The speakers were there and merely the auditors failed. For a while the association remained very quiet, and it was generally supposed to be dead; but the poor thing has not yet found rest, the *Volksblatt's* galvanism still manages to keep the body twitching. On Wednesday evening there was a meeting of this National Association, which is going to reform things with an unflinching hand, and, after some discussion, its members agreed to support the ticket at the next October election which we published yesterday. This idea of reform really seems to turn some people's heads. Now here was an assembly composed partially of persons who make great protestations of being Republicans, but whose honesty is so intense that they make up their minds to reform the party, and proceed to do so by setting up a mixed ticket. the result of the success of which would be to deliver the State Legislature into the hands of the Democracy. It would really seem as if the association were working under the directions of some would be Macchiavelli of the Democratic party. Two State Senators gained, would give that party a majority, four Assemblymen, from Allegheny county, would be as much of a Democratic triumph as a victory in New Hampshire. To be sure the Democratic Commissioner is placed together with a Republican, but the former for three years and the latter for one. We fear the Republicanism of that little meeting was something like that of the *Volksblatt*, which will not support the national administration or even the city ticket, but is very willing to do the official printing.

FOREWARNED.

Private circulars have been issued by our opponents for the purpose of impressing upon their people the great necessity to work diligently for the election of members of Assembly. Efforts are to be concentrated on one particular candidate in each district, and by repeating and colonization of voters from other districts, earnest endeavors will be thus made to increase the Democratic majority in the Legislature. They confidently count on electing forty-nine of their candidates for the Lower House, and they hope to secure one more, and by this means cause a tie vote in the Assembly. We have good reason to believe that either the first or second Pittsburgh district will be selected where this effort will be made. Our candidate in the first district is James Taylor, Esq., a very worthy and upright gentleman, who has served two terms in the Legislature, and has the full confidence of the community. In the second district we have nominated Matthew Edwards, Esq., a gentleman who is well known and universally acknowledged to be in every way competent, and whose character is beyond the reach of slander. We have the most positive proof that Democracy has determined to make a desperate effort to defeat one or both of these gentlemen, and to accomplish this, every conceivable form of electioneering will be resorted to. On the final canvass prior to the election, in case our enemies think their success is in doubt, large numbers of them will take up their temporary residence in one or the other of these districts, from other sections of the county, and thus hope to elect their candidates. The first and second Allegheny county districts are comprised in the twenty-three wards of Pittsburgh, and we call upon our Republican friends to stare this thing in the face, and ask themselves whether the purposes of Democracy shall succeed through their indifference. ONE MEMBER FROM ALLEGHENY COUNTY MAY GIVE THE STATE INTO THE HANDS OF THE DEMOCRATS. This will give them the United States Senator, and this is what they are working for. Republicans of Pittsburgh, we warn you to be on your guard. We have done our duty; see that you do yours.

THE TARIFF.

"At present there is but one visible way to elect from OHIO an opponent of the tariff swindle, namely, to elect a Democratic Legislature."—New York *World*.

This is candid, to say the least of it. Democracy hereabouts, periodically prates that it is faverable to a protective tariff; but the genuine thought pervading the Democratic heart leaks out occasionally as the above extract proves. Ever since the days of "ten cent Jimmy," it is well known that Democracy has been uniformly arrayed against protection to American labor, and the records will show that four-fifths of the votes of that party, on the subject, have been against a tariff for protection against British cheap labor. The individual efforts, or apparent efforts, making here and there by members of that party, are of no possible value, since the vote of the party when given at all, is uniformly against us. The country is mainly indebted to Republican votes and influences for the wisdom and statesmanship exhibited in the policy of the nation, during the last ten years. When the Republican party came into power it found the manufactures of the country languishing, and the laboring men working for sums barely sufficient to keep body and soul together. One of their very first measures was a re-adjustment of the tariff laws in the interest of the American manufacturer, and the American laborer. What has been the result? We ask our people to consider the question calmly and thoughtfully.

Those of us who depended upon the labor of our hands for our daily bread, can easily recall to mind the days and nights wasted in the past, in vain search for work; work, which, when found, was but poorly recompensed at best. What is the fact now? Is there an honest man in our community necessarily idle? Is there not work plenty for all? Is the pay not better than it was under the old Democratic free trade rule? We do not suggest these inquiries merely in the spirit of partizanship, but for the purpose of turning the mind of our readers to an investigation of the facts, expecting thereby, logically to show the wisdom of the policy of the rule of Republicanism, and the impolicy of that of Democracy. The *World*, the leading organ of that party in the United States, admits that the only hope of defeating the "TARIFF SWINDLE" is by the election of the Democrats to office. Democrats, capitalists, workingmen—are you ready to play into the hands of a class who are working in the interests of the British monopolies, and who stand ready to snatch the very bread from your mouths? We ask you to ponder well the extract at the head of this article, and question yourself, if your pride should longer lead you with a party which is bent on your injury, and that of the nation.

SMALL-POX NOT EPIDEMIC IN PITTSBURGH.

No city in the world except, perhaps, those situate on mountains, several thousand feet above tide-water, can claim to be so free from epidemics as Pittsburgh. It was remarked by Doctor Agnew, once for many years, an eminent and venerated physician of this city, that while many of the epidemic *diseases* visited Pittsburgh, no one of them had ever became *epidemic* here. His theory was that several tons of sulphur were evolved in our atmosphere every day, the manifest effect of which was to neutralize miasma. During the first two years that cholera prevailed in Pittsburgh, the whole number of victims was but fifty-nine, which was less than half the mortality at any city of half our size actually visited by the malady. When the cholera appeared again in 1849, it was quite malignant beyond the city limits, but very few died within the city proper. In 1854 the cholera became epidemic in Pittsburgh, no doubt owing to the well-known fact that nearly all our factories were idle, and being in warm weather, none but kitchen fires were to be found throughout the city. The sulphur was not evolved, and the disease was therefore unchecked. When our multitude of factories are, as at this time, all in full blast, an epidemic disease may exist, but cannot spread so as to become *epidemic*. The small pox exists probably in every large city in the world almost continually but like other infectious diseases, is kept in check in all places where proper Sanitary expedients are used. It exists now in Pittsburgh, but is confined almost exclusively to crowded alleys or obscure streets where filth abounds and filthy habits obtain, and does not seem to get beyond such locations. We have not heard of a single case in any of our business streets or in families residing in the best kept streets of our city. Our citizens come and go through these streets and thorougfares as freely as ever they did, without fearing the contagion in the least, of the thousands who daily come and go at our hotels, not one has been attacked, or witnessed, we venture to guess, during his stay in the city, a single circumstance to excite apprehension. The alarm *beyond* the city is much greater no doubt, than *within* the city. Rumors greatly exaggerating the truth are circulated at places more or less remote from the city. We have heard these alarming rumors ascribed to traveling agents and sample men sent out from Eastern, and probably from some Western cities, striving to get orders for their wares from men who generally buy their goods at Pittsburgh. We understand that some of these mercantile bummers have gone so far as to write on the fences, "Beware of Pittsburgh, small-pox raging," &c. We would have our readers know the truth, and not be misled by such false and delusive announcements.

We have, in these columns, frequently spoken of the small pox in the city. We do not now deny that there have been a number of deaths from it, but they have not averaged per week, one in 10,000 of the population, and, as we said before, the cases are confined chiefly to such particular quarters as most invite disease. We have, in our frequent reference to the subject of its prevalence, wished rather to incite our sanitary authorities to use all possible precautions against the spread of the disease. In thus endeavoring to provoke the Councils and Board of Health to a vigorous fight against it, we may have unwittingly detered parties at a distance from visiting the city. If our merchants and manufacturers had joined the press or co-operated with it for the same purpose in June and July, they would have no reason now to complain that some of their customers have sought supplies elsewhere. The press has done its duty in this whole matter, and will continue as heretofore to withhold nothing due from it to its readers at home or abroad, in town or country. We say it is quite as safe to come to Pittsburgh and to remain in it for a day, a week or a month, as it is to visit any other city in the land.

RAILROADS.

IT IS asserted that for sixteen years not a drop of blood has been spilled on the Michigan Central Railroad.

THE travel on the Boston, Concord and Montreal Railroad is holding out much longer this season than ever before.

THE first regular passenger train on the new railroad from Worcester to Gardner, by way of Holden, Princetown and Hubbardston, Mass., was run on Monday.

THE McGregor and Southwestern Railroad Company have filed articles of incorporation. The road is to commence at McGregor, Clayton county, Iowa, and run to Kansas City, Missouri.

THE Lancaster (Wis.) *Herald* says: "It is a settled fact that the Galena & Muscado Railroad will be built. The projectors ask along the route only the right of way. This will be a narrow gauge railroad."

A LARGE and enthusiastic meeting was held at Bangor on Monday evening to take measures to have a proper representation of that city at the meeting at Cherryfield on the 13th inst., in aid of the Eastern Maine Railroad. A committee of one hundred was appointed to attend and represent the interests of Bangor.

THE Huntingdon (Pa.) *Journal* says: The engineers of the East Broad Top Railroad Company, have now commenced, at East Broad Top, permanently to locate the road. It is not decided yet by the company whether the road will go through Smith's Valley or by way of Three Springs and Orbisonia to Mount Union.

THE St. Peter (Minn.) *Tribune* of September 6, says: "Since the commencement of the work on the extension of the Winona and St. Peter Road, west of this place, it has been pushed so vigorously that already the grading is nearly done to the second crossing of the Minnesota river at Redstone, some three or four miles this side of New Ulm. In two weeks, track-lying will probably be commenced and continued until it reaches Redstone."

THE City Councils of Covington, Ky., have appointed a committee, consisting of Messrs. Todd, Clarkson, Leathers and Shinkle, to consider and report upon the propriety of submitting to a vote of the people, at an early day, a proposition to subscribe five hundred thousand dollars to the Cumberland and Ohio Railroad. The President of this road, in a communication to the Council, represents that the company have already $3,250,000 secured by subscription to the stock of the company, leaving but six hundred thousand dollars to be raised to complete the Southern connection of the road.

AN Akron, Ohio, letter to the Cleveland *Herald* says: "The probabilities are that Gen. McClellan will not accept the Presidency of the newly organized Atlantic & Great Western Railroad Company. It is well known that he is superintendent of the docks in New York city, and he thinks that in superintending them there is work enough for a life time of service. If his plans are carried out, the docks of New York will in time surpass those of any European city, and he has a pride in superintending and overseeing them. So, no matter how much the purchasers of the Atlantic and Great Western Railway may desire the services of the General he will prefer to remain in New York."

THE rapid growth of Berlin is viewed by the *National Zeitung* with pride and satisfaction. No continental capital has expanded in the same ratio within the last century. At the outbreak of the great French Revolution, Paris contained 800,000 inhabitants, while Berlin had only about 120,000. The population of Berlin to-day is as large as that of Paris eighty years ago, the rate of increase amounting to nearly 700 per cent., while Paris during the same interval has increased less than 250 per cent. Hitherto the progress of Berlin has been uninterrupted, and has gone on at an increasing ratio, and the *National Zeitung* sees no signs of any check arising.

THIRTY YEARS AHEAD.

A Glimpse of Affairs in 1901.

The fancy of forcasting the future has seized the Washington *Republican*, and in a lively three column article it treats its readers to a view of Washington in the year 1901, and a retrospect of what had occurred in the thirty preceding years. Much of the article relates to local matters, but there are some allusions to national affairs which we copy. The speaker is supposed to be the "oldest citizen," and he thus in 1901 recounts the past:

Thirty years ago—I was a young man then—I lived in Washington as the correspondent of a New York newspaper. Grant was President. It was immediately before his re-election. Boutwell was Secretary of the Treasury, and had just succeeded in funding seventy or a hundred millions of the national debt at a reduced rate of interest. This was followed by the sale shortly after of a thousand millions of our bonds in Europe, and was really the first great step toward the payment of the debt which was blotted out about five years ago. I consider the payment of that debt one of the chief glories of the Republic. Unless you read the newspapers and the political speeches of the day, you can have no idea of the fierce opposition which that great financial policy of the Union Republican party encountered. It was bitterly denounced by the so-called Democratic leaders of that time as a fraud and a crime. You consider it a very small matter now, but you must recollect that we were less than forty millions of people when we made the resolution to pay to the last farthing; that we had suffered severely from the war, and that the temptations to repudiation were strong and had numerous advocates.

The people in those days were honest and patriotic. When I look back and recollect the men and the measures of 1870, and contrast them with the scheming politicians and demagogues of the present day, I almost despair of the Republic, and sometimes think that our institutions will not after all be perpetual. Look at the work of the men of thirty years ago. Four millions of slaves made free, a gigantic rebellion crushed at a cost of a million of lives and twenty-five hundred millions of dollars; the Constitution so amended as to make the Independence Declaration of the founders of the Republic and the Constitution great living truths instead of mere mockeries and shams; the conception and negotiations of the great Washington treaty, which has so often been referred to during the last twenty-five years; that Washington treaty which we Americans of to-day point to with so much pride, which is ranked as one of the four great popular charters of the world, was sneered at and belittled at the time. It was said in some of the public prints of that day, that we had been cheated; that it was a surrender; that England had outwitted us, and so forth.

After some allusions to local affairs the speaker takes up the fortunes of the prominent men of to-day, and thus sketches their future:

Judge Miller, who was afterwards Chief Justice, lived here on Capitol Hill, in that house on the corner. He purchased it from General Chipman who was the first delegate in Congress from the District, and who was re-elected two or three times. I saw him yesterday down at Mount Vernon, at the head of the Oldest Inhabitants' Association. In 1872 he was the choice of the old Republican party for the Vice Presidency with Grant. He refused the nomination, however, and Mr. Blaine, then Speaker of the House of Representatives, became the nominee.

George H. Williams, of Oregon, was a man of great ability. He resigned his seat in the Senate to accept a place on the Joint High Commission, as it was called. Subsequently he was offered a seat in the Cabinet and a foreign mission, but refused both. In 1874, I think, he was nominated as a Justice of the Supreme Bench, which, as you know, he accepted. Hamilton Fish, Secretary of State, was the third, or rather first of the American Commissioners. The treaty is mainly his work. He was an elegant gentleman, a man of high culture and education. And yet he was probably the best abused member of President Grant's Cabinet. He belonged to what in that day we called the old school. They are all old now, but to the young men of my generation he seemed to belong to the Washington era, when wigs and silver buckles and knee-breeches were in fashion—when civic virtue and honor and honesty was the rule and not the exception. Mr. Fish was, as I said, terribly abused, but time, which rights all things, has done him justice. He made the foreign policy of Grant's first administration eminently successful, and is to-day justly considered one of the greatest and best of our State Secretaries.

The other members of President Grant's Cabinet were Mr. Delano, afterwards Senator from Ohio; Geo. M. Robeson, who served a term as Vice President, and W. W. Belknap, for twelve years a Senator from Iowa; Mr. Creswell, who was also Vice President, and Mr. Ackerman, of Georgia, who retired from the Supreme Court bench a few years ago. George H. Boutwell, Grant's Secretary of the Treasury, was almost as badly abused as Secretary Fish. There was a man named Hyatt here, who edited a Sunday paper, and lashed him most mercilessly; but the people liked Boutwell, and you know he was elected President in 1876, at the end of Grant's second term. Henry D. Cooke, who was the first Governor of the District, was Secretary of the Treasury. Mr. Cooke made an excellent Governor, and was very popular. That monument to him there in the Park, near the Smithsonian Institute, was erected by public subscription.

He speaks of Washington as having grown in 1901 to be the most beautiful and imposing city in the world. Senator Simon Cameron is still living there, and has just celebrated his centennial. The article concludes as follows:

How Europe has changed since then! The monarchy has been overthrown in Great Britain. The present Minister from the English Republic to the United States was at one time called the Marquis of Lorne. He married a daughter of the last Queen of England, Victoria, and was consequently the brother of the last English King, whose throne was pulled down in the great International labor contest that swept over Europe in 1885. The great German nation, Belgium, Austria and Italy, Spain and Portugal, are all republics to-day, and these establishments are occupied by plain, untitled gentlemen. Why, I remember when Washington had as representatives to our Government Barons and Baronets and Lords and Earls. But they have all gone with the system under which they flourished, and have become a tradition and a fable.

Yes, the flag is still flying over the Senate wing. Let us go in. How this Rotunda has been changed in thirty years. There used to be old pictures of the Revolutionary heroes and statesmen all around the walls, but they were removed long ago. I am not very sorry, for they were awful daubs. How America has advanced in art as in everything else! There is B. F. Butler's statue, presented by the citizens of New Orleans. I remember the time they would have lynched him if they caught him in Louisiana. That portrait of Sumner is very fine. His great ambition was to be President. He opposed Grant in 1872, and hurt himself very much. That is the portrait of Schuyler Colfax. He was Vice President, and afterwards a great temperance lecturer. He made more trips across the continent than any man of his generation. That is the statue of Oliver P. Morton, of Indiana. Morton was a very able man, and could have been President if he cared for that honor. Here is Anthony, of Rhode Island, an elegant and accomplished gentleman, who served eighteen years in the Senate. That portrait! Benjamin F. Wade, of Ohio, the best and bravest of the old anti-slavery men. This! Lyman Trumbull, and that Henry Wilson. There is Horace Greeley in a niche near the reporter's gallery on one side, and Benjamin Franklin on the other. That is Wendell Phillips over in the diplomatic gallery.

And there, the mention of Greeley reminds me. I must go to see Ramsdell and White at the county jail. It is exactly thirty years since they were imprisoned for knocking down a Senator in the Capitol (a Mr. Carpenter, I think), and taking the Washington Treaty from him and publishing it. Poor Ramsdell and White! They are old and gray and venerable looking now, and have ten years yet to serve. The jail is away out at Anacostia, and I have barely time to get there before it is closed for the day.

Spooks.

The Spiritualist missionaries in the West have been doing their work so well that the innocent country people are ready to believe the most incredible stories about ghosts and ghostly manifestations. In Illinois the converts are said to number several thousand. The latest achievment of the spirits in that State has produced a startling effect on the minds of the ignorant and superstitious. A short time since, it appears that a little girl, the daughter of a man named Shelly, while engaged in ironing a white pocket-handkerchief, was attracted to what seemed to be the falling in of the centre of it, with the portrait of a beautiful lady. She immediately took the article to her parents, who readily accepted the "mystery" as a sign from the unseen world. The fame of the "spirit photograph," as the Cairo *Bulletin* calls it, has since been spread far and wide, and hundreds have flocked to the Shelly homestead to examine it. Disembodied spirits are reported to be hovering near, and as a matter of course, the ever-industrious "meejums" have taken advantage of the excitement to replenish their slender purses.

THE FATALITY OF CONSUMPTION.

If we did not believe in the philosophy of cure brought about by the discovery of that unequaled remedy known as DR. KEYSER'S LUNG CURE, we would hesitate before we published another article in its favor. It is infallible in its work whenever there is vital power enough left in the constitution to allow of its action, and to admit of its being digested and assimilated with the food. In the early stages of pulmonary disease, its action is quick and speedily arrests the cough and begins to re-invigorate the system. It should be borne in mind that Dr. Keyser's Lung Cure is never a debilitating medicine. By a gradual but sure method, the rich and balsamic juices of which it is composed are soon digested, to be added to the blood and endowing it with a newer and more plastic power. Let not the incredulity which has prevailed with regard to the curability of consumption delude you of your life by treating with contempt so valuable a remedy as Dr. Keyser's Lung Cure is known to be. Thousands of persons have received the benefit of its salutary action, and we have no doubt but a timely resort to it would be instrumental in adding years of life to many a suffering invalid. Sold at Dr. Keyser's Medicine Store, 167 Liberty street. Office hours from 10 A. M. until 1. A pamphlet of 32 pages on Chronic Lung Diseases. Sent wherever it is wanted.

INFLUENCE OF TEMPERATURE ON HEALTH.

In the fall the difference between the temperature of night and day is greater than at any other time of the year. In the early autumn the quicksilver sometimes rises as high during the day as in the most fervid summer weather; while at night it often sinks to an almost wintry point. The human body not being made of steel or India rubber, sensibly feels these tremendous changes. To fortify the system against them, a genuine tonic is required; and the public has long since discovered that among this description of medicines Hostetter's Stomach Bitters is infinitely the best. It gently quickens the circulation, regulates the bowels, tones the liver, braces the nerves, and thus puts the whole physique on its defense against the vicissitudes of temperature in our climate. Few, if any cases of epidemic fever are heard of in localities where it is in common use. As it becomes more and more widely known, and the demand for it increases, chills and fever, and the bilious remittent seem to recede before it, and if ever it should come into universal use, these diseases would cease to be known as the scourges of our low-lying and marshy districts. That homely bit of proverbial philosophy, that "prevention is better than cure," should be especially borne in mind in the autumn months; and indeed in all seasons, together with the fact, that among all the preventives of malarious disease, Hostetter's Stomach Bitters is the most safe and potent.

Be certain, however, to obtain the genuine article, as countless imitations of a pernicious character are abroad. See that the externals are all right, and remember that Hostetter's Stomach Bitters is sold in bottles alone.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, September 14, 1871.

The Philadelphia stock market exhibits but little change. Penna. R. R., 63@63¼; Reading, 57¾; Catawissa, preferred, 49¾@50; Allegheny County 5s, 77½; Northern Central, 42¼.

Notwithstanding the recent attempts in New York to raise the rates of interest, money continues about as abundant and cheap there as for the past month or two. A New York journal says, very truly, that perhaps the most remarkable thing in connection with this plethora of money is that it has as yet caused no such speculative fever as might naturally be expected in the stock, gold and bond markets. The condition of the money market, when viewed in connection with the prices of stocks and securities, is in fact anomalous, as the rates of interest afforded by these investments are now relatively higher than when money was comparatively scarce, while for short commercial loans they are lower.

—With gold at 114 and 5-20s of 1862 quoted at 115¾ this afternoon, the latter quotation is equal to 101.19 in gold, and, deducting the interest accrued since May 1, it leaves the net price of the bond 98¾ in gold. The 5-20s of 1867 are quoted this afternoon at 114¼, which is equivalent to 100.31. Deducting the interest accrued since July 1, it leaves the price of the bond 99 in gold. If the Syndicate can succeed in buying 5-20s at this depressed price, and have them redeemed at par in gold on December 1, they will not only be drawing interest at the rate of 11 per cent. per annum on their capital invested in the two sets of bonds, but making an additional profit of 1 per cent. on the 5-20s. There have never been clearer cases of artificial prices resulting from manipulation than the present ones of 5 per cent. bonds at par, and 6 per cent. bonds of the same government at 98¾ to 99. When the $200,000,000 of new 5 per cents. now in the process of being negotiated shall have been disposed of, it is to be presumed that the same tactics will be tried with the remaining $300,000,000 of 5 per cents. authorized by the amendment to the Funding bill; but, even if the effort to place these should be successful, it would not furnish the means for the redemption of the 5-20s of 1865, 1867, and 1868. The negotiation of the 4 and 4½ per cents. at par the same as the 5 per cents., is improbable, and there is, therefore, even less legitimate cause for the decline of the later series of 5-20s than those of 1862.—*Chicago Tribune.*

NEW YORK, September 14, 1871.

Gold active; opening at 113¾, selling up to 114⅛, and closing at 113¾@113⅞. Loans were from 1-32 per cent. per day to 3 per cent. per annum for use. Clearances $18,000,000. The Government yielded to the demands of the merchants to-day and sold $4,000,000 gold at from 112 75 1-10 to 114 06. The bids amounted to $9,575,000 at from 112 25 to 114 06. Governments dull and steady. The fluctuations in the stock market have all been on a higher range than those of yesterday, although at times the market has been weak. The pivot point of the market now is Lake Shore, which has fluctuated between 114⅛ and 115. The strength of this stock is due to the expectation that at an early day the terms of an issue of $15,000,000 new stock will be made public. Short interest has been very largely increased during the past few days. The market at the close was heavy in North Western shares, and generally steady in other stocks. There was no special feature beyond a general dullness. Among the miscellaneous shares to-day Mariposa declined from 3 to ½ in common, and from 5¾ to 3½ for preferred. Money a little lower and more active to-day, in consequence of an increase of business in the stock Exchange. State bonds dull, with but little change in prices.

Sterling exchange 108⅝.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, September 14, 1871.

ASHES—Common Soda ash, 4@4¼; refined 4¼@4½; Pearls, 9; Pots, 7½; Nitrate Soda, 4½.

BEESWAX—Quoted at 30@33c.

BUTTER—Nearly all the produce houses agree in reporting all grades of butter excepting strictly No. 1, as being very dull, and stocks accumulating. We continue to quote good to prime, at 20@23, and choice at 25.

BROOM CORN—We can report sales of common and medium at 4@5 cts; prime is still quoted at 6 cts.

CEMENT—Louisville, $2,50@3,00 per bbl. Rosendale, $4,00@4,50; Calcined Plaster, $4,25@4,50.

CORN MEAL—Is quoted, in small lots, at 80@85 cts per bushel.

CIDER—The market is quiet and unchanged; receipts continue meagre and prices are fully sustained. $6@8 per bbl.

COUNTRY MEAT—There is little or nothing doing in country bacon, and prices are entirely nominal. Country Lard, still quoted at 8@8½.

CARBON OIL—There is considerable activity in a jobbing way; thus far, however, the orders are mostly small, and prices remain unchanged, 22½@23. The impression prevails to some extent that as prices have dropped 1 to 1½ cts per gallon in the east that there should be a corresponding reduction, here: it should be borne in mind, however, that notwithstanding the decline east, the raw material is but little if any cheaper, and as, a consequence, refiners cannot put the price of refined down so long as crude keeps up.

CHEESE—Is more active and firmer, but without quotable change in prices; prime Ohio Goshen, 10½@11; Factory, 9½@10; Dairy, 8½@9.

DRIED FRUIT—We can report some few sales of new crop Southern Peaches (halves.) at 9@9½ cts. Nothing doing in apples.

EGGS—The receipts are increasing somewhat, but with a steady demand, prices, although irregular, are maintained; sales reported at 20@22 and 23—dealers generally quote at 22.

FRUITS—Apples continue dull with a supply considerably in excess of the demand, and prices are weak and barely maintained; $2@3 per bbl for fair to prime. Peaches and Plums—receipts and offerings very light and the season is over. Quinces are being sold at $4@5 per bbl. according to quality. Grapes in fair demand and with a limited supply prices are well maintained, 5@6 cts per lb.

FLOUR—The market is quiet and devoid of a single new feature worthy of notice. We continue to quote good spring extras, at $6,50@6,75; choice baker's flour, $6,85@6,90, and good to choice red winter wheat $6,50@6,75.

GRAIN—There is a steady demand for Wheat, and, with continued light receipts, the market is firm, though there is no quotable change in prices; $1,24@1,27 for red, $1,28@1,30 for amber and $1,32@1,35 for white. Our grain dealers have handled but very little wheat thus far this season, which is owing to the fact that prices are higher relatively in the west than here, so that there is little or no margin in buying for this market; however, taking Philadelphia and New York as a basis, prices here are high enough, as there would be no margin in shipping to either of these points. Oats, moderately active, but, if anything, a shade lower, and the feeling generally does not seem as strong as it was a few days since. The receipts, however, appear to be falling off slightly, and no material decline, if any, is anticipated: mixed may be quoted at 42@43 and white at 44@45. Corn is not offering so freely and the market, in consequence, is a shade firmer; mixed shelled, 63@64; yellow shelled, 64@65. Rye is scarce and in demand; No. 1 would sell readily at 78@80. There have been quite a number of sales of Barley within the past week or ten days, mostly western; No. 1 spring may be fairly quoted at 80.

There was a fair attendance on 'change today, and, as will be seen, considerable business effected:

1 car No. 1 Spring Barley, 80.
5 " No. 3 Barley, on private terms.
5 " White Oats, free in elevator, 44.
1 " " " sacked, 44.
1 " Mixed Shelled Corn, 63.
2 " Tight pressed Hay, $24.50.

GROCERIES—Our advices from New York report the Coffee market as being comparatively quiet, though it has lost none of its strength, notwithstanding the excitement which prevailed for the last week or two has subsided. Importers do not appear to have lost any confidence in the bean, in view of the fact that late advices from Brazil tend to confirm the reports of a short crop. Messrs. Wm. Scott & Son report the stock in first hands at 65,731 bags, as follows: Galveston, 4,000 bags; Mobile, 1,084; Baltimore, 18,232; New York, 42,415. Sugars at the same place are reported quiet and weaker, though, as yet, there is no decline—it is thought that refined will drop back again shortly, but of this there is no certainty. Stock of raw Sugars in New York, on Wednesday, 63,773 hhds, 91,063 boxes, 349,043 bags and 8,424 melado. Molasses dull, holders generally being anxious to realize. Syrups, in fair demand and prices well sustained on all leading brands. Spices, Rice, etc., quiet and unchanged.

SUGARS—Refined—Standard Hards, 14; A. 13¾; B, 13½; Ex. C, 13; C. Yellow, 12⅝. Porto Rico Sugars—Choice, 11½; Prime, 11; Good, 10½. Cuba Sugars, 10¾@11. Demarara, 12¼@12¾. Sugar House Sugars—Knight's Extra C Yellow, 11½; C. C. 11½; other grades, 9@11. New Orleans Sugars—None in market.

COFFEE—Fancy Rio, 21; Prime, 20; Good, 19; Fair, 18@18½. Java, 25@28. Laguayra, 19@20. Mocha, 45. Roasted Coffee—J. S. Dilworth & Co.'s pure, 22. Lower grades, 21.

SYRUPS—Havemyer & Elder's, 70. White Honey, 70. Lovering's, 60. Durant's, 70. Brune's, 70; other grades, 48@60. New Orleans Molasses, 60@68.

RICE—Choice Carolina, 9½; Good, 9¼; Fair, 8½. Rangoon, 8@8½. Patna, 8.

SPICES—Pepper, 22. Allspice, 18. Cassia, 50. Cloves, 20. Nutmegs, $1,30.

HAY—Baled is in steady demand and tight pressed sells readily, by the car load, at $24@25.

HIDES—Green Salted, 10½@11¼; Green Butcher's, 8; Dry Flint, 21@22; Green Calf Skins, 14@15; Green Salted Calf, 17@18.

HUSKS—Quoted at 2½@2¾ cts.

HONEY—Is in steady demand and prime white clover honey, in good condition, sells readily at 28@30.

HEMP—Quoted at $165 per ton.

LIME—Perrysburg white, $2,00@2,25 per bbl; Cleveland $2,25; Eastern, $1,75.

MILL FEED—Is steady with a fair jobbing trade at $21@22 for Bran; $23@25 for Seconds, $33@35 for Middlings, and $43@45 for Oil Meal.

ONIONS—In steady demand, and we can report regular sales at $3,50@4,00 per bbl.

OIL—No. 1 Lard Oil, (Pittsburgh make) 70@72 to the trade, and 75 in a small way. No. 2 quoted at 58@60.

PEA NUTS—Steady at 12@13 cts.

POULTRY—We can report a steady demand and regular sales at 55@60 cts per pair for young, and 70@75 for old, by the coop.

PROVISIONS—Plain Shoulders, 6¾@7; sugar cured shoulders, 9½; clear sides, 9½; ribbed sides, 8¾; Breakfast Bacon, 10¾@11; sugar cured hams, 15@15½; Dried Beef, 18@18½. Mess Pork, $14¼@14½. Prime kettle Lard, 9½ in tcs: 10 in kegs and 11½ in pails. Refined Lard, 10½.

POTATOES—We can report regular sales of Sweets at $3,00@3,50 per bbl for Baltimore and $4,00@4,50 for Jersey.

RAGS—Sales, 4@4½ cts per lb.

SEEDS—There is some inquiry for Timothy Seed, mostly for small lots, however, and prices are unchanged; $3,50@4,00. Clover Seed is still quoted at $6,75@7,00. Flaxseed unchanged at $1,80.

SUMAC—Sales Tennessee Sumac at 4½ cts.

WILLOWS—Quoted firm at 10 cts.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY Sept. 14, 1871.

The refined market was a shade stronger today with some offers to buy at an advance; this slight improvement, if such it can be called, is attributed mainly to reports of a number of our refiners having concluded to close their works. While it is to be regretted that they are forced to resort to this, it is generally conceded that it is the best movement that can be made under the circumstances; that there is no money in refining oil at present prices, is generally admitted, and, as the producers obstinately refuse to place crude within the reach of refiners, the best thing for refiners to do is to let the producers keep it. Producers claim that they cannot afford to sell below present prices, and this may be true, but it is also true, as already intimated, that refiners cannot afford to buy: refined, as is well known, has dropped about two cents per gallon, within the past few weeks, while crude has not declined over five cents per barrel. Would it not be better for the producers to go with the market? let refiners have the raw material at a figure that will enable them to keep their works in operation. If the production of refined is cut down, the demand for crude will, of course, be very materially lessened, and, with stocks accumulating at the wells, a break is inevitable, sooner or later—it will only be a question of time.

CRUDE.

Pittsburgh deliveries nominally unchanged. Parker nominal at $4,60@4,65.

REFINED.

Closed firmer; September may be quoted at 24; and we are cognizant of 24¼ having been bid for the 1st half of October. No sales—Market very quiet.

RIVER NEWS.

The river remains unchanged at this point—there is scarcely water enough in the channel to float a good sized yawl. Weather cloudy and cool, with every indication last evening of rain.

Com. Kountz, mammoth stern wheeler John F. Tolle, is the centre of attraction at the wharf.

Capt. Kennedy's new Rio Grande River steamer, San Juan, is about completed and will depart as soon as there is water.

—A Louisville correspondent of the Cincinnati *Commercial* writes as follows in regard to the canal improvement: The work of improvement along the canal is progressing slowly, and your readers may be assured that another summer and yet another fall, and further appropriations will be required before the work is completed. The present aspect of the canal, or ditch, is rough, ragged and woeful in the extreme, and a stranger to the locality and the scene would require an extreme stretch of the imagination and many explanations to be convinced that it was, indeed, a work of art, and a well used, as well as abused, channel of commerce. That portion of the work most actively in progress just now is near the head, or outlet, about the point where the great Ohio River Railroad bridge spans the canal. This is where the draw is located, the round, or pivot pier, being now the Northern boundary of the canal bank. The canal at that point is now widened some thirty feet, making it ninety feet wide, and wide enough for the largest boat ever built, all cut through the solid bed of limestone rock, the latter being used in rebuilding the walls. It is a herculean work, and necessarily progressing slowly.

In mentioning the work on the canal at this point, it is to revert to the fact that when completed it will obviate one of the great difficulties of the navigation of the falls, and overcome the greatest objection to the bridge that spans the river at the head of the falls. The outer, or sea wall of the canal is to be built higher, and the point of land beyond, or next to Corn Island, cut away, so as to enable steamers in high water to pass through the draw along the outside, or outer wall of the canal, and not be compelled to lower their chimneys, as they would otherwise have to do in passing through either the middle or Indiana chutes. The draw is some two hundred feet long, with the pivot pier forming the canal boundary, being in a line with the outer wall, and passing steamers can either go through the canal, or along the outer wall, outside, having a space, of fully ninety feet in the clear on either side. Of course, the outer passage through the draw can only be made during very high water. This may be hazardous passage, but it removes a serious objection to the bridge, and the boatmen can continue to build and admire tall chimneys, and rejoice yet awhile longer, or until that great gormandizer, the Pennsylvania Central builds another bridge, which it contemplates, right here at the falls. A few millions more or less to that monopoly is a mere bagatelle, and the steamboats must go under, as well as be restricted by irksome and expensive laws and regulations, while the railroads are free, lawless and unrestrained to maim and to murder at will, as well as to override private and public interests, even to the control of legislatures and States as well. Is it not time for Congress to rule and regulate railroads?

A coalboat basin, and depot and elevator, the latter at an expense of $40,000, a private enterprise, are in course of construction in the canal, just east of the bridge. The basin begins just beyond the locks at the head of the canal, and is to be ninety feet wide and three hundred and twenty-five feet long. The excavations and walls are under progress as rapidly as possible, and the basin is expected to be completed and ready for the reception of coalboats as soon as the canal is opened for the use of steamers. The company, during the past year, have sold and shipped 240,000 bushels of coal to and by the railroads, and, by means of the basin and elevator, expect to increase their sales five fold, yet the people of Louisville were taxed $1,000,000 for a branch railroad from Elizabethtown to the coal regions in Southern Kentucky, from whence no coal, excepting a few samples, ever comes. It helps to enrich a few nabobs, while the press is silent and the people are oppressed.

—A Washington special says: The question having been raised by the supervising inspectors of steamboats in the west whether owners of river steamers will be required to provide means to remove the mud and sediment from all parts of the boilers when they are under pressure of steam, under the provision of section 11, act of February 28th, 1871, the Treasury Department to-day decided that the section of law referred to applies to the boilers of "all" steamers, and nothing appears in subsequent portions of the law exempting any steamers from its operations, except, foreign vessels, public vessels of the United States and vessels propelled in whole or in part by steam for navigating canals. Supervising inspectors of steamboats will therefore govern themselves according in enforcing the law.

—The New Orleans *Picayune* says: The Carrollton City Council has referred to a special committee of three of its members an ordinance making the river limits of Carrollton, for ten years, a free port for all vessels to lay up in without charges in the shape of levee dues or other municipal charges. The vessels are to have not less than from one to three persons on board to take charge of them, and they are not to carry on any traffic whatever, without the necessary license or permission. This restriction is not to apply fish, oyster, or market boats.

—The Louisville *Courier* of Wednesday says: The towboat Sam Merwin was sold at public sale Monday evening, at the foot of Preston street. Frank Dougherty was the purchaser at $3,750. He afterward sold her to Rorer Woods & Co. There were also a number of horses and mules sold at the same sale, which brought good prices, ranging from $125 to $190.

—The following is a list of boats laying up at Portland: Grey Eagle (new), Mary Houston, Tarascon, Morning Star, Edinburgh, R. C. Gray, Pink Varble, Glasgow, Emma Floyd, Robert Mitchell; towboats Boaz, J. S. McDonald, Horner, Lioness No. 2, and William Cowan; barges Peter and John Baker.

—The St. Louis *Democrat* says: Captain A. H. Shaw, late of the Arkansas, will command the Carrie V. Kountz. If he likes her he will buy an interest of three-eighths from Wm. J. Kountz & Co.

***LOUISVILLE* CEMENT.**

The Best--The Cheapest.

The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.

It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.

The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers, in order to largely increase the sale and extend the use of their Cement, to furnish it in the principal markets at prices which make it the most available and economical for all classes of work.

The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.

At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders that the foundation of every good house should be laid in this Cement.

A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:

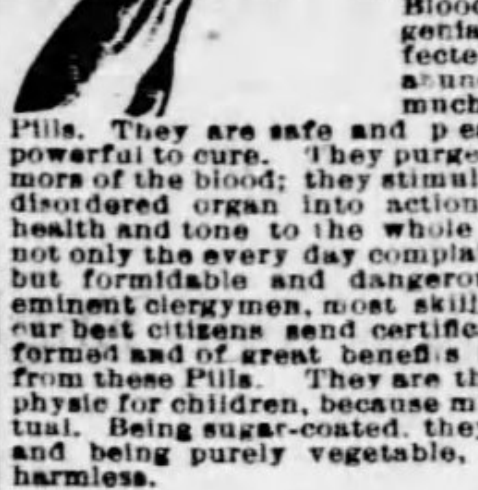
Ayer's Cathartic Pills,

For all the Purposes of a Family Physic, curing



Costiveness, Jaundice Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar-coated, they are easy to take; and being purely vegetable, they are entirely harmless.

SPECIAL NOTICES.

☞ **$1,000 FORFEIT—NO SUGAR OF LEAD.**—We pledge ourselves to the public and give them the most solemn assurances, under a penalty of one thousand dollars, that the "LONDON HAIR COLOR RESTORER" does not contain a particle of Sugar of Lead, or injurious drugs in any form whatever, and that it is an innocent preparation, incapable of doing the least injury.

WM. P. SWAYNE,
(Dr. Swayne & Son.)

Affirmed and subscribed before me, this seventh day of July, A. D. 1871

PETER HAY, Alderman,
Twelfth ward, Philadelphia.

WHY "LONDON HAIR COLOR RESTORER" IS SO HIGHLY ESTEEMED AND UNIVERSALLY USED.

BECAUSE—It never fails to restore gray or faded hair to its original youthful color, softness and beauty.

BECAUSE—It will positively stop the hair from falling, and cause it to grow on bald heads in all cases where the follicles are left.

BECAUSE—It will restore the natural secretions, remove all dandruff, itching, and cures all diseases of the scalp.

BECAUSE—It will do all that is promised, never failing to preserve the original color of the hair to old age.

BECAUSE—It is warranted to contain no mineral substance, and easily applied as water, not staining the skin a particle or soiling anything.

BECAUSE—It has become a staple article, and no Toilet is complete without it, and every leading Druggist and dealer in toilet articles sells it.

Price, 75 cents a bottle. Dr. SWAYNE & SON, Philadelphia, Sole Agents for the United States. Sold in Pittsburgh by McCLARRAN & McKENNAN, 85 Market street and opposite P. O., and all Druggists and dealers everywhere. se8 MWF

HOME NEWS.

George Biggs' Jewelry Store is No. 159 Smithfield street.

The Weed Sewing Machine is the most simple, durable, and effective machine in use.

Watches, clocks, and jewelry repaired by competent workmen at the jewelry store of GEORGE BIGGS, No. 159 Smithfield street.

The Free Excursion and Simpson's lunch will be repeated, and the music will be by the Great Western Band. No postponement on account of weather.

Death at the Workhouse.—Night before last Mary Miller, committed to the workhouse about two weeks since, died at that place. The cause of her death is said to have been consumption. She was buried at four o'clock yesterday afternoon.

WHEELING, VA., September 9, 1874.

I have this day appointed James Connor, wholesale grocer, Pittsburgh, Pa., sole agent for my celebrated Wheeling Stogie Cigars.

Signature: M. FORD.

Witness: J. S. HULL.

The Last Chance at Homestead.—To-morrow every remaining lot at Homestead will be positively sold. If you want to get one at first hands get it *now or never*. Many of those sold on Saturday and Tuesday have already changed hands at considerable advance, and when the company is done selling, prices will go up with a jump.

Not Returned.—Detective Peter Dressler, who went to Cincinnati last week on the search of the fugitives, Small and Hazlett, has not yet returned, neither has he been heard from since last Sunday, when he telegraphed that he had failed to discover any clue to the boys. It is argued from his continued absence that he has since gained some information in relation to their whereabouts, which he is now following.

Great Excitement.

The announcement that the famous oyster and dining saloon of Wm. Holtzheimer, Nos. 71 and 73 Fifth avenue, would be again thrown open to the public, has caused the wildest excitement throughout the city. Next Monday has been the day set apart for the grand formal opening, when William will be glad to see all his old-time friends, and use his best efforts to make many new ones. As a first-class caterer Holtzheimer has had a wide and well-merited reputation in the past, which, we doubt not, he will maintain in the future.

County Fairs.

The Washington county annual fair will be held at Washington, Pa., on the 27th and 28th inst. The premiums are very liberal, and the coming exposition promises to prove one of the most successful ever held in that section of the State.

The eighth annual meeting of the Beaver, Pa., County Agricultural Society will be held at Beaver on Wednesday, Thursday and Friday, September 27th, 28th and 29th. The stock exhibition will be made a leading speciality, and some fine turf display may be anticipated. The premium list amounts to $5,000. A rare good time may be anticipated.

Agricultural Experiment.

EDITORS GAZETTE: Being desirous of knowing whether plants could be grown without the aid of animal matter, I made an experiment in the following manner, which resulted successfully. Having crushed ⅝ peck of sandstone and ⅛ peck of limestone, which was placed in a keg impervious to any external moisture, I therein planted one kernel of corn, which produced a stalk five feet ten inches (5 feet 10 inches) in height, one inch in diameter, and weighed two pounds—one ear ⅜ pound. I send this trial that others may be stimulated to further investigate the theory that the earth was similarly composed of granite (sand and lime). J. W. C.

NEW PLYMOUTH, O.

Captain Houghton Arrested.

We noticed yesterday morning that John Trimble, conductor on the Pennsylvania Railroad, had given himself up to the authorities and given bail for a hearing on a charge of criminal carelessness. We have this morning to chronicle the arrest by detective Irwin of Captain Houghton, of the steamer Elizabeth, on a warrant issued by Coroner West, charging him with criminal carelessness in the death of the little boy Scott, drowned off his steamer a week or so ago. He was taken before Judge Sterrett, in the Criminal Court, where he entered bail in the sum of $2,000, to appear at the December Term of the court for trial. John P. Penney, Esq., went his security. We learn that the father of the drowned boy intends to assist the Coroner in the prosecution of the case.

Bank Robbery at Wheeling.

The Peoples Bank of Wheeling was very successfully robbed on Wednesday, in broad-day light, by a couple of desperadoes. They entered the bank while Mr. George Feeny, the teller was alone, at dinner hour and, both drawing revolvers at him, told him that his presence was no longer necessary for that day. Mr. F. instantly retreated and drew a revolver. The first robber advanced and fired, the bullet narrowly escaping the teller's head. The second then advanced and fired his revolver, which shot was promptly returned by the teller, neither having effect. The first thief then ran behind the counter and seized 1,536 dollars in bank notes and the thieves then retreated. The alarm was raised but the rascals escaped with their plunder, and kept their pursuers at bay by frequently turning and threatening to shoot. It is to be hoped that they will be captured.

Result of Carelessness.

Thieves entered the residence of Mr. James Parks, No. 65 Marion street, on Wednesday night through the cellar. The entrance was effected through the coal hole, which had been carelessly left open. From a bureau in the upper part of the house they took $1,100 in money and two watches, one gold and one silver. With these spoils they departed, leaving no trace by which identity could be established. Five hundred dollars of the money taken was in large bills. There were four $100 bills and two $50 bills. The rest of the money was in fives and tens. Fifty dollars, it seems, had been put aside by Mrs. Parks in an old pitcher in a closet down stairs. This money the thieves found and stole with the rest. The initials G. M. W. were engraved on the watch.

Chief of Police Hague was notified of the occurrence shortly after its discovery, and Officer Moon was by him detailed to work up the case. No clue has as yet been obtained to the perpetrators by that officer.

The Late Suicide.

We learn that Prof. Cowper, or Coperwaite, who committed suicide at the St. Charles Hotel on Wednesday, came to this city from Bedford county twenty years ago, and for some time worked at the saddler trade. In 1857 he first opened his dancing academy here, which he has conducted every season since, excepting a short time spent in Cleveland. Lately he has been troubled by financial embarrassments and ill health, brought about by excessive drinking, together with a disreputable affair in connection with a lady of previously good character, with which he was connected. These things probably produced a partial aberration of his brain under which he was impelled to end his life.

The Coroner received yesterday noon from a former partner of the deceased the following dispatch:

"Cowper has relatives in this city; cannot find them; I put in paper, Daily *Ledger*.

D. S. CARPENTER."

The photograph of an old lady, found upon the person of Cowper, is supposed from its resemblance to him to have been that of his mother. The picture was taken by S. T. Coperwaite, 3,518 Market street, Philadelphia, who is supposed to be his brother. Another relative of deceased, Mrs. C. H. Jones, resides in De Kalb avenue, Brooklyn. The latter, we are informed, is a sister, and with the other has been telegraphed particulars of the suicide. Letters addressed to deceased while in Peladelphia indicate that he boarded at Mr. Coperwaite's, Race street.

A dispatch was received by Mr. Aiken, the undertaker, yesterday afternoon from a brother of Prof. Cowper, who resides in New York stating that he would leave New York last evening and arrive in Pittsburgh, and for Mr. Aiken to have his brother's remains ready to take them to New York for interment. The friends of the late Professor are said to be very respectable and wealthy. Their whereabouts was ascertained by letters found in the deceased's pockets. Mr. Aiken has the remains in ice, and informs us they are in a perfect condition. His effects were seven dollars in money and a gold watch valued at twenty-five dollars.

Amusements.

NEW OPERA HOUSE.—The engagement of Mr. Joseph Jefferson this week at the Opera House has been one of unparalleled success. The capacious house has been filled from pit to dome every evening, and hundreds have been turned away, unable to gain admittance. Rip Van Winkle will again be presented to-night. To-morrow afternoon a Jefferson matinee will be given, and the night performance will conclude the great engagement.

Next week Mrs. J. A. Oates and her Comic Opera Troupe will form the attractions, and judging from their success elsewhere, we feel sanguine of an excellent engagement for them here. It will be our first taste of well-rendered music in the city this season, and as the repertoire of the company is composed of very attractive pieces of a highly humorous yet refined class, we see no reason why there should be any falling off in the patronage of the New Opera House, which Mr. Jefferson's performances have raised to such magnitude. There is great curiosity to hear the singing of the little woman whom many claim has a voice equal to Patti, and to see her vivacious acting, which is generally conceded to surpass either that of Maggie Mitchell or Lotta. The stock company of the Opera House will play in Johnstown during Mrs. Oates' engagement.

FIFTH AVENUE OPERA HOUSE.—Mr. John Collins, the versatile and accomplished interpreter of genuine Irish comedy, has been well and flatteringly received at the Fifth Opera House this week, notwithstanding the unusually brilliant attractions of Rip Van Winkle. It is a specially pleasing sign that both houses have transacted such fair business this week, as it goes to prove that our amusement patrons are sufficiently appreciative to encourage all efforts made for their entertainment in a liberal way. Mr. Collins has for years past been a great favorite with our play-goers, and he rallies his hosts of admirers about him every time that he appears on our boards. His delineation of the Irish character is high toned and faithful. The hospitable, good natured, generous son of Erin is portrayed in colors offensive to none, for Collins does not fall into the error of always painting Pat in blackguard words, rough jests or tattered rags. As MacShane, in the "Nervous Man," he sustained himself admirably last night, and was greeted by a very fair audience. He was very well supported by the excellent stock company of the Opera House. To-night he appears for a benefit in the "Irish Attorney, or Galway practice in 1770," and to-morrow afternoon's matinee and evening performance will close his engagement.

Next week Manager Beamer promises the appearance on his boards of the famous pantomimist troupe, the Abbots, who have made such a profound sensation and stir in the theatrical world. They are all very superior artists and are universally acknowledged to be without equals in their line in the world. They play the grand and amusing pantomine of the "Three Hunchbacks."

During their engagement the stock company will play at Titusville in "Jot," "Married Life," etc.

Watches, clocks, and jewelry repaired by competent workmen at the jewelry store of GEORGE BIGGS, No. 159 Smithfield street.

ALLEGHENY COUNCILS.

Regular Monthly Meeting.

Allegheny Councils held their regular monthly meeting last evening, at their chambers in the city building.

Select Council.

This branch was called to order at 8 P. M. The Clerk called the roll, the following members answering to their names: Messrs. Hall, Huckenstine, Heagey, Kirkpatrick, Matthias, Megraw, Moul, Omsler, Patterson, Phillips, Reineman, Riddle, Schoyer, Wettach, Wittmer, and McBrier, President.

The minutes of the previous meeting were read and approved.

PETITIONS, ETC.

Mr. SCHOYER, a petition for a sewer on Arch street. Referred.

Mr. WETTACH, a remonstrance against grading Troy Hill. Referred.

Mr. HEAGEY—A petition for grading and paving Rush alley. Referred.

Also, petition for grading and paving Manhattan street. Referred.

Also, petition for water pipe on Manhattan street. Referred.

Mr. MATTHIAS—A petition for hose, carriage and steam fire-engine in Ninth ward. Referred.

Mr. HALL—A petition for sewer on Carrol street. Referred.

Also, sewer on Beaver street, from Fourth avenue to Jackson street. Referred.

Also, petition of Robert Stewart in relation to assessment for grading and paving. Referred.

Mr. J. C. PATTERSON—A communication from J. N. McCullough, of P. Ft. W. & C. Ry. Co., informing Councils that the Company propose to erect a new station house on Federal street, and asking that a small portion of the ground belonging to the city, lying immediately above the station house and at present leased by the Company, be given them, as the ground owned by the Company is not quite large enough for the erection of a building according to the plans. Referred to a Special Committee. For S. C. Messrs. Patterson and Kirkpatrick were appointed.

Also, a resolution changing the place of election in 1st precinct, Fourth ward, from old school house to new school house, on Avery street. Passed.

Mr. KIRKPATRICK—A petition asking Councils to reconsider their action authorizing the opening of Locust street. Referred.

THE WATER DEPARTMENT.

Mr. WETTACH presented the report of the Water Committee. The Committee say that a petition has been presented, signed by a large number of residents of Troy Hill, for a supply of water. The committee recommended that a tank be placed on the hill to supply that portion of the city with water, and that an engine be purchased for the purpose of forcing the water from the river to the tank.

A resolution authorizing the purchase of a tank and engine, provided the cost does not exceed $9,000, was submitted.

The Committee called the attention of Councils to the bad condition of the water supply, and to the fact that both the engines are worked constantly to supply the city, and to the fact that there was danger of the engines giving out, and thus depriving the city of the usual supply of water.

The Committee also reported that they had before them the subject of obtaining another engine and putting up the necessary buildings, laying pipe, &c., and that the Superintendent had estimated the cost of the proposed improvement at $7,500.

A resolution was submitted authorizing the Committee to have places prepared for a new pumping engine for water supply; also, for a suitable addition to the present Water Works building, and to advertise for proposals for construction of the same, and to report the entire cost to Councils.

Also, a resolution authorizing the Superintendant to lay water pipes on Shamrock alley Ninth ward, about three hundred feet, on Manhattan street, between Page street and Western avenue. Also, on Kerr street Ninth ward; on Davis alley; on Benton alley; on Sedgwick street.

The report was accepted and the resolutions passed.

STREET COMMITTEE.

Mr. J. C. PATTERSON, presented the report of the Street Committee. The Committee report that they have let the contract for a sewer on School street. They report adversely to sewer on Chartier street. In relation to the petition of Mr. Stewart asking that the bill of $16 presented to him by the Chief Engineer of the Fire Department, for pumping out his cellar, be cancelled on account of the damages done to his property by the sewer on Fremont street being stopped, the Committee report adversely. They report that they have let the contract for paving Stockton avenue, to Mr. Robinson, who represents the stone pavement. The report of viewers on repairing Jackson street is submitted and its approval recommended.

The following ordinances for opening streets running at right angles with the river were recommended:

Kilbuck street, from School street to the Ohio river; Robinson street, from School street to the Ohio river; Allegheny avenue, from South avenue to Ohio river.

The following ordinances also accompanied the report:

For grading and paving Grant avenue.
For grading and paving Spring alley.
For a main sewer on Pennsylvania avenue.
For a lateral sewer on Stockton avenue.
For grading and paving Reddick alley.
For grading and paving Eagle alley.
For grading and paving Sturgeon street.

The report was accepted and the accompanying ordinances passed with the exception here noted, viz: Ordinance for grading and paving Grant avenue, which was laid over.

REPORTS OF VIEWERS.

The report of viewers on the re-opening of Jackson street was received and approved. Also, the report of viewers on opening Glover alley, was confirmed. Also, the report of viewers on the opening of a passage way from North avenue to Union avenue, was received and the viewers discharged. The report of viewers on the opening of Jefferson, Monterey and Union streets was ordered to be filed in the Controller's office. Also, report of viewers on opening Buena Vista street, was ordered to be filed in the Controller's office.

FINANCE COMMITTEE.

Mr. HALL presented the report of the Committee on Finance. The Committee report that they have had under consideration the issuing of $100,000 of City Park bonds, under the Act of Assembly, and submitted an ordinance authorizing the preparation and printing of $100,000 of City Park bonds.

Report accepted and ordinance passed finally.

CONTROLLER'S REPORT.

Mr. HALL presented the Controller's report. Following is a recapitulation of expenditures:

	Total	$13,957 47

Report accepted and filed.

REPORT OF COMMITTEE ON CITY PROPERTY.

Mr. Riddle, Chairman of the Committee on City Property, presented the report of that Committee.

The Committee state that they have asked bids for furnishing coal to the city and the lowest bid was ten cents per bushel, which includes the delivery of the same in the cellar of the City Building and in the weigh house. The Committee submitted the following resolution.

Resolved, That the Committee on City Property be and are hereby authorized to contract with the firm of Messrs. Wettingle and Gormley to furnish the city with coal at ten cents per bushel, this amount to include the delivery of the same wherein desired.

The attention of the Committee was directed to the slow progress being made by Mr. McGeary, the contractor for building the General Grant Engine House, the present appearances indicating that the contract will not be finished at the proper time. It is deemed advisable to submit to the following:

Resolved, That the Committee be and are hereby instructed to notify Mr. McGeary, the contractor for building the General Grant Engine House, that he will be required to complete his contract on or before the time stipulated in his contract, with the city.

In relation to the communication from the citizens of the First ward, asking Councils to establish and maintain a River Side Park on the now unoccupied ground lying south of South avenue and west of School street, your committee had the matter under consideration and came to the conclusion that the proper course to pursue under the circumstances would be to refer the whole matter to the Park Commissioners, with instructions that they take the necessary steps to obtain and maintain possession of the same.

The Controller called the attention of the Committee to the fact that their appropriations were considerably overdrawn. It was decided to report the following resolution:

Resolved, That the Controller be and he is hereby authorized to transfer $2,000 from the Contingent Fund, and place the same to the credit of the appropriation for Committee on City Property.

Report accepted and accompanying resolutions passed.

SURVEY COMMITTEE.

Mr. HEAGY, from the Survey Committee, reported adversely to the opening of Refuge street, Ninth ward, for the reason that the majority in interest was opposed to it. Also, an ordinance extending an alley in the Ninth ward. The Committee refused to recommend the widening of Middle alley, until those opposed and those in favor of the same present their names to the Committee.

SANITARY.

Mr. PHILLIPS called up the resolution appropriating $1,000 for the use of the Board of Health. Passed finally.

Mr. PHILLIPS also presented an ordinance authorizing the Board of Health to post "small pox" placards on all houses in which the disease was known to exist, and imposing a penalty of $25 for the removal of such cards. Laid over.

Also, an ordinance fixing penalties from $5 to $25 for the violation of any section of the ordinance providing for the establishment of a Board of Health. Passed finally.

Mr. J. C. PATTERSON presented a plan of Bidwell street sewer. Approved.

Mr. KIRKPATRICK, a resolution requiring the Pittsburgh, Allegheny and Manchester Passenger Railway Company to repave between the tracks on Federal street from Ohio street to their bridge. Carried.

Mr. REINEMAN, a resolution for gas lamps on Troy Hill. Referred.

Mr. KIRKPATRICK, instructing viewers on opening of Locust street to suspend action. Passed.

The report of the Committee on Wharves and Landings, presented and approved in C. C., August 10, was called up and the action of S. C. non-concurred in.

In all C. C. business not otherwise noted, S. C. Concurred.

Common Council.

In the absence of President Slack, Mr. McNeill was called to preside.

All the members were present except Messrs. Dalzell, Dean, Knox, Reed and President Slack.

The minutes of the previous meeting were read and approved.

PETITIONS, RESOLUTIONS, ETC.

Mr. VOEGTLY, petition for a sewer on Chestnut street from Pike street, to connect with Spring Garden avenue sewer. Referred.

Mr. ROWBOTTOM, petition for the water main on Adams street to be extended one hundred feet, and a petition for a water main down Water, Adam and a short distance down Preble street. Referred to the Water Committee, with power to act.

Mr. HASTINGS, petition to have James street, whose name has been changed to West street, renamed, and its original name James, given back again. Referred to Street Committee with instruction to rename the street James.

Mr. COOK, petition for a police station for the benefit of Fifth, Sixth and Ninth wards. Referred.

Mr. BROWN, petition for a division of the Seventh ward, as follows: All that portion of the Seventh ward lying north of the Third ward and west of Madison avenue be annexed to the Third ward, which would be better for school and election purposes. Referred to Committee on Division of the Wards.

Mr. WALTERS, petition for a sewer on Arch street, formerly Beaver street, from Stockton avenue sewer to Park way. Referred.

Mr. SHIPMAN, petition for the location of Western avenue as far as Wilkin's street. Referred.

Clerk of Markets	$1,321 40.
Second ward Scales	244 84.
Diamond Scales	226 36.
Total	$1,792 60.

Received and filed.

FIRE ALARM BELL AND TOWER.

Mr. HASTINGS, from the Committee on Fire Engines and Hose, presented quite a lengthy report from that committee, presenting many good arguments in favor a central alarm bell. They finally report that Messrs. Gamewell, Kennard & Co. agreed to put up a tower complete, furnish a 5,000 pound bell, and all the necessary equipments for $5,000. They therefore recommend the adoption of the following.

Resolved, That the Committee on Fire Engines and Hose, be and they are hereby authorized to contract with the firm of Messrs. Gamewell, Kennard & Co. for furnishing the city of Allegheny a 5,000 pound alarm bell, constructing a tower for the same; also furnishing the necessary equipments for, including striking apparatus, and all labor and material, for a sum not exceeding $5,000.

Resolved, That the central area of the market house, or so much thereof as may be necessary for the purpose, be set aside for said tower.

Report received and resolutions adopted.

GAS COMMITTEE.

Mr. ROWBOTTOM, from the Gas Committee, presented the report which recommended the passage of a resolution to place gas lamps and posts at the following points:

On Stewart street, at the corners of Chartiers, Manhattan and Fulton streets.

Two on Chartiers street, between Rebecca and the river.

On Montgomery avenue, between East Diamond and Sandusky streets.

At the street openings in the different sections of the Parks.

Four lamps on East Ohio street, from the new Troy Hill road to the head of Pine street.

Three lamps on Main street.

Two on Pine street.

Six on River avenue (including one at the corner of Pine street).

One at the corner of River avenue and Union alley and four about 250 feet east of Pine street to a point above Hartje's foundry.

The report received and the resolutions adopted.

DECORATION EXPENSES.

Mr. HASTINGS, from the Special Committee to whom was referred the matter of making arrangements for the proper observance of Decoration day, (May 30th last) reported that they had contracted several bills then, which they presented with the following resolution, viz:

Resolved, That the Controller be and he is hereby authorized to certify warrants in favor of Messrs. J. Spencer & Co., for $70 and John W. Pittock for $8, the former being for carriage hire for members of Council on Decoration day, and the latter for badges for the use of the members at that time. Report received, resolutions adopted and the committee discharged.

Common Council then took up Select Council business, in all of which it concurred.

Adjourned.

THE COURTS.

Yesterday's Proceedings.

QUARTER SESSIONS—JUDGE STERRETT.

The jury in the case of John Thomas, colored, tried for larceny of a watch and money from John Wallace, announced that they could not agree upon a verdict. They were then discharged.

Robert Young, indicted for assault and battery on James Quinn, plead guilty. Sentenced deferred.

The next party called was Charles Boyle, against whom there were two indictments for selling liquor without license—one on May 21, and the other on August 31. On the first case Boyle was acquitted but ordered to pay the costs, and on the second he was found guilty. The counsel for Boyle made a motion for a new trial, claiming that he had license on the 6th of May, issued by the License Board.

The next case on the list was that of Wm. M. Andrew, indicted for aggravated assault and battery. The defendant was charged with having beaten John Herrington with a fork-handle and assaulted him with a knife. The jury rendered a verdict of guilty of simple assault and battery.

Samuel Deeds was next put on trial on an indictment charging him with the larceny of some small farming implements from Henry Bookstore. A verdict of guilty was rendered.

Then came the case of William L. Gould, indicted for assault and battery in seizing by the throat and choking Mrs. Caroline Koch. A verdict of guilty was rendered, and Gould was sentenced to pay a fine of ten dollars and costs.

The next cases put on trial were suits for assault and battery, one brought by Nicholas Biteweiser against Michael Bollinger, and the other by Bollinger against George Lehman, John Altmeier, Henry Grimm and Sylvester Schnipp. The suits grew out of a difficulty on the South Side. The jury found a verdict of not guilty and directed that the prosecutor pay the costs.

COMMON PLEAS—JUDGE COLLIER.

The case of Thaw et ux. vs. Madame Rees and husband, taken up Wednesday, was resumed. After the jury had retired, plantiffs' counsel asked for a non-suit for reason of defective declaration.

The next case taken up was that of the Union Piano Company, of Philadelphia, vs. Hoffman, Hoene & Co. This was an action to recover $250, with interest, alleged to be due for a piano purchased by defendants. The defense claimed that plantiffs had agreed to accept a lot of ground in Philadelphia in payment of the claim, and that they were prepared to fulfill the contract. The jury found for plaintiffs in the sum of $311 24.

The case of Coulter & Co. vs. J. P. Haigh, was next called. By an agreement of counsel a verdict was rendered in favor of plaintiff for the sum of $998 20.

HATS AND CAPS.

All the New Styles at the Great Hat and Cap Store of William Fleming & Co., No. 139 Wood Street—Great Rush for the "Tourist."

Mr. William Fleming, of this popular and energetic house, has just returned from New York with his second stock of fall goods. The well-known character of this house for keeping the largest assortment and latest styles of goods, and for selling them at prices far below that of any other first-class establishment, has increased its trade to a degree unequaled by any house of that kind in Western Pennsylvania. This is nothing more than a just tribute to the courteous and upright business men that compose the firm. We call attention to a few of the leading styles just introduced into fashionable circles.

The "Tourist"—somewhat similar to the "Alpine," which had such an immense run a few seasons since. It is a much more exquisite and dressy hat. From present indications it will have run far surpassing that of the Alpine in its most palmy days. All the other late styles, and every thing in the Hat, Cap, or ladies and children's Fur line, will be found in the largest assortment at Fleming & Co's. The fact that they sell the best goods in the market, and at less prices than any other house in the city, should be duly appreciated by our citizens. Wholesale buyers will find great inducements at this large estblishment

The Free Excursion and Simpson's lunch will be repeated, and the music will be by the Great Western Band. No postponement on account of weather.

HEAVY LAW SUIT.

Oil Dealers in Litigation—Nearly Half a Million Dollars Involved—Dr. David Hostetter vs. Warden, Frew & Co.—The Plaintiff's Oration—Exhibit of the Entangled Transaction.

Many persons in this community remember the charges made in the fall of 1869, of the existence of a "Bull Ring," organized in Pittsburgh for the purpose of fictitiously elevating the prices of petroleum, as alleged, and which culminated so disastrously to its members on the night of the 31st of December, 1869. Much out-door talk has been indulged in by the knowing ones, and vague hints of dissatisfaction have from time to time been made, all tending to the belief that the alleged "Ring" were quarreling among themselves, on account of the unsatisfactory results of the venture, as returned by the financial agents. Anxiety has been for some time back on tip-toe to catch the first symptoms of publicity made of the troubles of the parties supposed to be interested. From the following copy made from the records in the prothonatory's office it will be seen that one of our most highly respected citizens brings suit to recover the sum of TWO HUNDRED AND TWENTY-FIVE THOUSAND DOLLARS and sixty-seven cents, alleged to have been paid by him, to the house of Warden, Frew & Co., of Philadelphia, on account of purchases of refined oil made by them for his account. The plaintiff further avers that Messrs. W. F. & Co., have sold this said oil, amounting to FORTY THOUSAND BARRELS, under his orders, and that they have so far retained the proceeds, and refuse to render him a statement accompanied with the amount realized from said sale. The defendants by letter accompanying the papers admit the purchase of this amount of refined oil, for account of the plaintiff, and also receipt for the amount claimed to have been paid them by him.

The burden of proof will be upon them, to prove what they have done with this large amount of money. It is rumored outside that, in the course of other large transactions had between these parties, about the same time that the above occurred, large amounts were sunk in sundry extensive purchases of crude oil, and that the balance, instead of being due to the plaintiff, is in favor of his agents, Messrs. Warden, Frew & Co. However, this is only rumor, and we do not vouch for its correctness. The trial will no doubt bring all facts to the light, and the public will watch it with considerable interest, both on account of the respective characters of the contestants, and the large amounts involved. We doubt if the records of our county will exhibit a case where so large an amount was at stake, or where the public took as much interest in its decision, as they will in this one. Here is the oration of the plaintiff:

In the Court of Common Pleas of Allegheny County, Pa. No. 94, September Term, 1871. In Equity. Between David Hostetter, Plaintiff, versus William G. Warden, William Frew and Charles Lockhart, Co-partners as Warden, Frew & Co., Defendants.

To the Honorable the Judges of said Court:

Your orator complains and says:

1. That on or about the 16th day of October, A.D. 1869, he directed the said defendants, who were oil brokers, carrying on business in the city of Pittsburgh, to purchase for him forty thousand barrels of Refined Petroleum, and ship the same abroad, for sale to the most available market in Europe.

2. In pursuance of said order, the said defendants afterwards, to wit: By letter of Oct. 22, 1869, advised me that they had purchased in their own name, but on my account, forty thousand barrels of Refined Petroleum to be delivered and shipped in the months of October, November and December, 1869, from the persons named, and for the prices stated in said letter, a copy of which is hereto annexed and made part hereof, marked "Exhibit A."

3. That afterwards, to wit: on the 29th day of October, A.D. 1869, I advanced and paid to the said defendants the sum of two hundred and twenty-five thousand dollars on account of said purchase, and received from said defendants a receipt for the same, a copy of which is hereto annexed, marked "Exhibit B," and made part hereof.

4. I ordered said oil as it was received from the parties from whom it was purchased, or within three days thereafter, to be shipped on board vessels, and conveyed to a foreign market for sale.

5. I was advised by said defendants that they received said oil on the days and at the times mentioned, in said advise of October 22, 1869, and that the same was shipped by them on board of vessels, consigned to different seaport towns in Europe, to parties of whom Christian Bois, of New York, and Peter Wright & Sons, of Philadelphia, Pa., were the agents.

6. That so soon as said oil was delivered on board of vessels as aforesaid, the said consignees through their agents aforesaid, advanced and paid to said defendants the sum of eleven dollars per barrel, upon each barrel shipped, amounting to the sum of four hundred and forty thousand dollars.

7. That said oil has long since been all sold by said consignees, and the proceeds remitted and paid to said defendants.

8. That the proceeds of said sales were largely in excess of the said advance of eleven dollars per barrel, so made by said consignees, but how much I am unable definitely to say, as said defendants have never rendered to me in full the accounts of said sales.

9. That the said defendants have never paid or accounted to me for any part of the said sum so by me advanced, nor for the money advanced by the consignees, nor for the money received by them on the final sale of said oil, and still unjustly retain the entire proceeds of said adventure.

10. That the said defendants are largely indebted to me as brokers and factors as aforesaid, and have neglected and refused to account to me for the moneys aforesaid, or any part thereof, although often requested so to do.

Your orator therefore needs equitable relief, and prays:

1. That said defendants may be compelled to account to me for the money advanced to them, as aforesaid, and for the proceeds of said oil so purchased by them, and shipped abroad, and sold by said defendants on my account as aforesaid.

2. That an account may be taken and stated by a master of this court, to be appointed by court for the purpose, of the said purchases and sales, so as aforesaid made by said defendants for me as my brokers, agents or factors as aforesaid.

3. That a decree of this Honorable court may be made, requiring and directing the payment by said defendants to me, of the balance found to be due me upon said purchases and sales aforesaid.

4. And that your orator may have such further and other process, remedy and relief in the premises as to right and justice may appertain and belong.

THE EXHIBIT.

The subjoined recapitulation shows the transactions as referred to in the foregoing oration of the plaintiff, or the list of refined oils purchased for Dr. Hostetter by Warden, Frew & Co., in the month of October, 1869. The oils were all delivered in October, November and December, 1869, with the exception of 4,000 barrels purchased at buyers' option all the year:

A NOTABLE INVENTION.

The Compound Propeller Pump.

There is scarcely a day that passes but our attention is directed to some new achievement of science, some recent application of the principles of mechanics, or some late triumph of art and inventive skill over nature. The labor of educated genius is continually producing new and wonderful inventions, and human ingenuity devising strange appliances to supersede the imperfect devices of the past, and to fill the long-needed wants in every department of skilled labor and scientific research.

Notable among the mechanical wonders of the present era is a recent invention involving principles so simple that it is, indeed, a marvel that the ingenuity of man had not long since brought it to light. We refer to the Compound Propeller Pump, manufactured at the Bridesburgh, Pa., Manufacturing Works, an invention which, for cheapness, durability and simplicity of construction, enormous power and variety of adaptation, entirely supersedes every previous invention of a similar character.

This useful contrivance does away with all packing and lubricators, the power being produced simply by a belt attached to an engine which may be used at the same time to operate other machinery. It consists simply of a column pipe inside of which a shaft revolves having shelves and propellers attached. The water is lifted by the screws and sustains its weight by the shelves revolving with a film of water between them.

This is the same pump recently used by the Monongahela Navigation Co., to take out the water from the Lock preparatory to the making of extensive of repairs. No other pump could be found to take out the water fast enough until this one was obtained, by means of which the immense body of water 250 feet long, 56 feet wide and 6 feet deep was pumped out in three hours.

A small pump of this kind is now on exhibition at No. 231 Liberty street, second floor, where it has already been visited by many practical engineers, capitalists and scientific men, who speak of it in terms of highest commendation, and where all interested would do well to call and see this remarkable invention in operation.

The Last Chance at Homestead.—To-morrow every remaining lot at Homestead will be positively sold. If you want to get one at first hands get it *now or never*. Many of those sold on Saturday and Tuesday have already changed hands at considerable advance, and when the company is done selling, prices will go up with a jump.

AN INDUSTRIAL EXHIBITION and Fair is announced to come off at the Rink, in Allegheny, commencing on Monday, October 2d, and continuing one week. The projectors of this enterprise promise a Fair and exhibition of unusual attraction to both exhibitors and visitors. The building will be handsomely decorated with beautiful evergreens, and the centre of the hall adorned by a rustic fountain and fish pond. The booths are to be so arranged as to afford exhibitors an excellent opportunity for the display of goods and wares, and nothing will be left undone which may add to the enjoyment and amusement of visitors. Proceeds for the benefit of the poor of both cities.

A SAD accident occurred at the Sterling mines two miles above Dawson Station, Connellsville railroad, last Saturday morning. A little son of Mr. John McCracken was drowned in the river. We understand he went in the river to catch something floating on the water and got into deep water; as he could not swim, it is supposed he sunk immediately. He was about nine years of age. His brother, who is a little older, attempted to rescue him but failed, when Capt. Wm. A. Jones chanced to see him and brought him out of the water, or he would likely have sunk also. The body of the drowned boy was recovered in a short time, was followed by a large concourse of friends to the Cochran grave yard on Sunday and deposited in its last resting place.

Brief Mention of Criminalities Yesterday.

For vagrancy, John Devine was sent to the Workhouse for sixty days.

John Smith was detected passing some whisky to some prisoners in the lock-up. He himself became a prisoner, and was sent up for ten days.

John Murray, the man who was several days ago charged with felonious assault and battery in cutting his wife in the face with a knife, waived a hearing before the Mayor and was held for trial.

Two ladies came to the Mayor's office and stated that they had just arrived here from Philadelphia on their way to St. Louis. While on the train one of them had had her pocket picked of her pocket-book containing $50. She had no idea whatever as to where the robbery occurred or who was the thief, so nothing could be done in her behalf.

Jerome Hembold, charged by Rose Hartman with assault and battery, was arrested at his home in Allegheny by officers Rivers and Ruch, and locked up for a hearing.

Wm. Connolly made information before Alderman Bowden, of Allegheny, charging Charles P. Stright with obstructing the sidewalks on Webster street, in the Second ward, with lumber. A hearing in the case will be had.

James Murphy came before Alderman McMasters and made information charging H. S. Miller with the larceny of twenty-seven dollars. A warrant was issued. This is the caboose car case mentioned yesterday.

John Hasbach was arrested by officer Miller, of the South Side, on a charge preferred by Frederick Schutt, for maintaining a nuisance in the case of an offensive pigpen. Fined $5 and costs.

The night watchman of the Birmingham bridge arrested a belligerent female Wednesday night, while en route for Birmingham, armed with a huge knife, on bloody purposes intent. She was looking for "her man," whom she had determined to kill. Justice Krehan sent her to jail for the space of five days, in hopes of spoiling a sensation.

Joseph Garber this morning instituted suit before Alderman Nellie, of Allegheny, against Edward Zarnicke, for assault and battery. The prosecutor says he was standing on the corner in company with some friends near Zarnicke's residence, and that defendant ordered them away, and not moving fast enough to please him, he accelerated their speed by firing a pistol at them. A warrant was issued for his arrest.

Before Alderman Logan came Margaret Johnson charging Jane Pearson with surety of the peace. Jane was arrested and held for Court in the sum of $200 bail.

A young man named Gallaher was arrested by Mayor Callow's police and locked up yesterday on a charge of larceny. It is alleged that some money was stolen from Frank Burns, a saloon keeper, residing on Pasture Lane, some time since, by his step-son, named Cook, and Gallaher is charged with being an accomplice.

Robert Otterson was yesterday arrested in Allegheny and taken to the watch house, on a charge of being implicated in the robbery of some wearing apparel from the residence of ex-Commissioner McGee.

Alderman Bolster of Allegheny took the several informations of C. Eisenhauser charging John Fuchs with disorderly conduct, felonious assault and surety of the peace. John went to Eisenhauser's residence in his absence, it is alleged, and acted disorderly, then picked up a hatchet and a knife with which he assaulted Mrs. Eisenhauser, finally threating to kill her. Warrant issued.

This well-known and justly favorite butcher desires us to notify the public that his stands are, and will continue, to be found only as heretofore at No. 78 in the Diamond market, Pittsburgh, and No. 39 in the Allegheny market; for these two stands, and only for these, he slaughters every other day, and for these his steady customers well know he provides the best fatted and best prepared meats to be found in the country. At these stands there will be found at no time any but sweet and sound fresh-killed beef or mutton, or lamb or veal. He challenges comparison of his meats with any to be found in the celebrated Philadelphia or London shambles. Customers who have sought him in the new Fifth avenue market are apprised that he is only to be found at the two stands above named, the reputation of which is very high, and he devotes all his experience and energy to keep it so, to retain his many customers and to multiply them more and more. Remember, his stands are No. 78 Old Pittsburgh and No. 39 Allegheny markets. MWF

BOARD OF HEALTH.

Adjourned Meeting—The Proposed Floating Hospital—Steam Escaping in Sewers—Election of a Solicitor—Small-pox Cases—Sundry Nuisances Reported, &c.

The Board of Health held an adjourned meeting at their rooms on Fourth avenue, at ten o'clock, yesterday forenoon. Dr. McCandless acted as Chairman, and Mr. Gray as Secretary, *pro tem*. Mr. Gray presented a resolution from Councils empowering the Board of Health to procure or purchase, if necessary, a boat to be used as a floating Hospital, on the Monongahela river at such point as the Board may designate.

The opinion of M. Swartzwelder, Esq., in regard to the legal powers of the Board, published yesterday, was then read, accepted and ordered to be filed.

Mr. Bakewell, of the firm of Bakewell & Christy, was then introduced, in behalf of Bakewell & Marthens, and stated that the latter were formerly in the habit of allowing the steam from their boiler to escape into the air, but that now they blow off into the sewer. The result was that complaints were made by the inmates of the Temperance Tower building, who allege that, as their closet opens into the sewer, the steam forces the odors into the house, creating a nuisance which Bakewell & Marthens had been ordered to abate. Mr. Bakewell remonstrated and prayed that the plaintiffs be instructed to have made a regular water closet with a trap, which he claimed would immediately relieve them from further trouble. Mr. Bakewell then retired, and upon discussion of the case it was shown that the custom was almost universal to blow off steam into the sewers of the city, and it was moved and carried, that the complainants be instructed to abate their trouble by using a proper *water closet*, with traps, &c., to prevent odors arising from sewers.

A resolution was presented from Councils requesting the Board of Health to make out estimate and suggest a plan for the removal of ashes, rubbish, &c., which was referred to the Sanitary Committee.

It was then moved and carried that Mr. Swartzwelder be elected regular counsel to the Board at a salary of two hundred dollars per annum.

Mr. Gray reported cases of small pox at the following places, which he announced had been closed: A. Reismeyer, 64 Wylie street; Henry Freeze, 66 Wylie street; and A. Hune & Co., in the same neighborhood.

The Health Officer was instructed to call the physicians to inspect suspected cases, and if found to be the small pox, to close the place at once and await the action of the Board.

Mr. Gray reported the case of a house on Grant street, in which three families lived. One child had the small-pox, when the case was reported. The Health officer went to the house and tried to induce the mother to permit her child to be sent to the Hospital, but in vain. The child died, and another was taken down with the same complaint. A small confectionary was kept in the front of the house, and there were many children in the house. Mr. Gray recommended that the patient there should be removed to the hospital, *nolens volens*. The father of the child was then introduced. He stated that he had lost one child; the other, eight years of age is very sick. He exhibited great reluctance to allow the child to be sent to the hospital, on account of the repugnance of the mother to the arrangement. Many arguments were used to induce him to comply with the reasonable requirements of the Board. He promised to use all possible endeavors to induce his wife to accede to the plan.

Dr. McCandless moved, and it was carried, that if the parents refuse to permit the child to be removed, the place be closed forthwith.

Mr. Reisinger came before the Board to ask permission to open his store again, and stated that his wife was much better. The attack was only varioloid, and Dr. McCandless told him that there was no further danger. After some debate it was decided to allow him to open up on Monday next.

Sundry nuisances, especially one in East Liberty, in the vicinity of the Stock Yards, were then reported and the Health officer instructed to act. Complaints were made against Mr. Hoeveler for carting dead animals from the stock yards to his glue factory. It was stated that in defiance of the law the animals were hauled through the streets after the proper hour in the morning. It was decided to notify him to cease, and if he persisted suit was ordered to be brought against him for such violation of the law.

The matter of the private alley in the rear of Federal street, in the Seventh ward, was then taken up. Dr. Gross moved that the property holders and dwellers on that alley be notified to abate the nuisance.

Adjourned to meet on Saturday, at 2 P. M.

THE *Pall Mall Gazette* calls for a curious invention. "The London Swimming Club," it says, "has devised a new bathing dress, which does not appear to secure its two objects, namely, decency and freedom of motion. It secures only the second. It is a tight fitting brown dress like that of an acrobat, and no impediment in the water; but to put it on or off, one must strip. What is wanted is a dress which can be put on, in the house under the clothes, and dried without taking off, and we are quite sure it is not an impossibility. Any tradesman who should solve the difficulty so that a man might go out out for a stroll, swim if, when and where the fancy seized him and never be totally undressed, would in this Paradise of Power make a fortune."

FIRST-CLASS

BUILDING LOTS

ON

Allegheny Ave. and Beech Street.

—

That finely situated Lot, on the west side of Allegheny avenue, between the residence of Mr. House and the fine new Double Residence of J. W. Hall, Esq., being 33 feet front and 145 feet deep, with 20 feet alley in the rear. The new residences of Messrs. Dickey and McCulla are nearly opposite, and Messrs. Hoene and John Stevenson, Sr., are now building in the immediate vicinity. The location is therefore very desirable for any contemplating building a good dwelling.

The Beech street Lot is 35 by 100 feet, with an alley in rear, situated between Messrs. George D. Riddle and Klages, the two finest houses on the street. It is the only vacant Lot in the square on Beech street, having a southern front.

These fine Lots can be bought at private sale this week on very advantageous terms, as the owner desires to build at once on the adjoining Lot on Allegheny avenue.

Being contiguous to the Park, and surrounded by so many handsome dwellings, these Lots should command the immediate attention of parties interested.

Prices will be attractive and terms very liberal.
